The sustainably made true wireless earbuds

But how is this possible? I mean, this was plastic waste!

Yes. But when it comes to the most common used materials we're collecting, for instance PET bottles, this waste already had food grade during its first lifecycle. After collecting it, our local teams are washing and sorting the plastic which is then shredded into flakes. After this step, the innovative technology we have developed with the Swiss University of Applied Sciences OST, takes over: We transform these flakes into pellets in a pure mechanical process, neither chemicals nor virgin plastics are being added. We use the latest technology and apply physical methods (vacuum, decompression, degassing, melting) to transform waste and extend the molecular chains of these wasted polymers. The result is a strong, clean and reliable material.

In the Box

The recycled ocean plastic used to make this product may have traces of the wide mix of types of plastics collected, this can allow some minor black spots and imperfections to appear upon the surface. These are normal and do not affect the performance of the product. The material is unique in character and happy not to be in the Sea.

How to Connect

Note: once you have followed this procedure, the next time you remove from charging case earbuds will connect to your phone automatically.

Once connected LED will flash green slowley

Touch Controls

Your earbuds come pre-set as below but you can customise to how you want through the boomPods APP

If not connected earbuds will power down after 5 mins

Charging case

Charging buds

Reset

In the unlikely case of any pairing problem

1. Remove from Phone Bluetooth menu.
2. Press and hold both ear buds for 8 seconds.
3. place buds back into case.
4. Remove both from case, quickly press 1 earbud 5 times.
5. Now connect to your phone like for the first time.

Further enhance your experience by downloading the BoomPods App, go to the App store.

Battery Case battery
350mAh Lithium Battery
Charge time 1.5h
Frequency: 20-20 KHz
MEMS Omni-directional
-42±3dB @1kHz
100Hz-10KHz
Operating temperature -0c-45c
v5.3
IPX 4
4.5hrs (1 charge) total 20hrs

The Declaration of Conformity can be found at:
<https://www.boompods.com/product/baseline-compact>
Heretby, Boompods declares that the radio equipment type [Earphone with Bluetooth] is in compliance with Directive 2014/53/EU. FCC ID: RD8-BH2013A
