

Safescan 6175 Money Counting Scale

Value count multiple cash drawers in no-time

Save time and simplify your cash management. The Safescan 6175 rapidly value counts coins, banknotes and even non-cash items with the highest level of accuracy. Within minutes you will know the exact value of each cash drawer, and have a complete overview stored on your device and ready to add to your administration. Perfect for when you need to count multiple cash drawers quickly. Thanks to its adaptive design, large display and improved user-friendly interface, your cash counting will be easier, faster and more reliable than ever.

- Money counting scale that value counts sorted coins and banknotes
- Counts loose coins and banknotes, coin rolls, coin bags and bundled banknotes
- Counts and processes non-cash items such as vouchers, coupons, tokens and chips
- Counts old and new versions of the same banknote denomination together
- Can count your entire cash drawer in just a minute when combined with our custom accessories
- Shows a complete overview of counting results per denomination
- Stores the counting results of up to twenty individual sessions on the device
- Can link counting results of different sessions to personally chosen 3-digit reference number
- Can deduct the starting value from the end count to calculate day totals
- Link date and timestamps to counting results with its real-time clock
- Calibrate a second coin cup from your own cash drawer to speed-up counting process
- Easily operated thanks to its intuitive user interface and large 4.1 inch LCD display
