

AXIS TU8004 90 W Midspan

For high-power devices

AXIS TU8004 is a single port 90 W midspan, compliant with IEEE 802.3bt and High PoE devices. Power over Ethernet (PoE) offers an easy, fast and cost-effective solution for powering network products. In a single network cable, a PoE midspan injects power and data to the network device with built-in PoE support. No need to replace existing Ethernet switches and cabling infrastructure. AXIS TU6011 Mains Cable is sold separately. The midspan can be installed on a wall, shelf or DIN rail with AXIS T91A03 DIN Rail Clip A.
