

# ThinkCentre M75s Gen 2

Looking for a versatile device to support existing or new desk workers in your company? This compact, space-saving desktop can be configured to meet a wide variety of user expectations - from basic admin use to extensive productivity tasks. It comes with thoughtful features like Smart Power-On to which enables the PC to be started via a keyboard shortcut instead of reaching for the power button.

For employees working with data or graphics, configure the device with 128GB DDR4 memory to boost multitasking performance, AMD Radeon 520 graphics, up to 2x fast SSD storage drives, and the latest AMD Ryzen™ 9 Pro processor.

There are 9x USB ports including 5 located on the front of the device. If data security is a concern, Smart USB protection can block data transfer but still enable keyboards, mice and printers to be used.

Optimized to reduce power consumption with EPEAT Gold and Energy Star 8.0 certifications.

## Mainstream computing for a variety of business uses

ThinkCentre M7 Series desktops offer enterprise security features, a wide range of configurations and expansion options, and reliability trusted by leading businesses across the globe.
