

CouncilCast Pro Solution

CouncilCast Pro and CouncilCast Plus are advanced solutions for Council Meetings and Panel Discussions. CouncilCast Pro pairs the PTC-145 PTZ camera with iCast10NDI for precise, high-quality video, while CouncilCast Plus uses the BC-15C

POV camera with KMU-100+ for broad coverage. Both are enhanced by VoiceTrx100 for automated, speaker-focused camera operation.

Automated Camera Operation

The VoiceTrx100 uses gooseneck microphone voice detection to automate camera switching and movement, focusing on the active speaker without needing a manual operator.

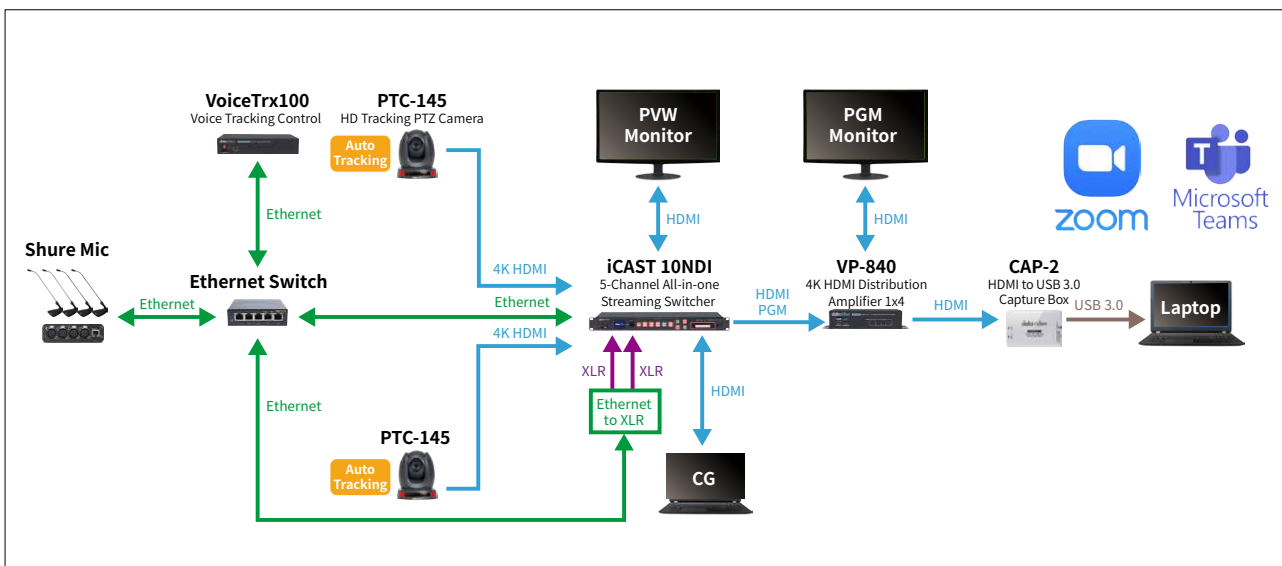

Automated titles

Automatically display the active speakers name on screen with broadcast quality graphics.

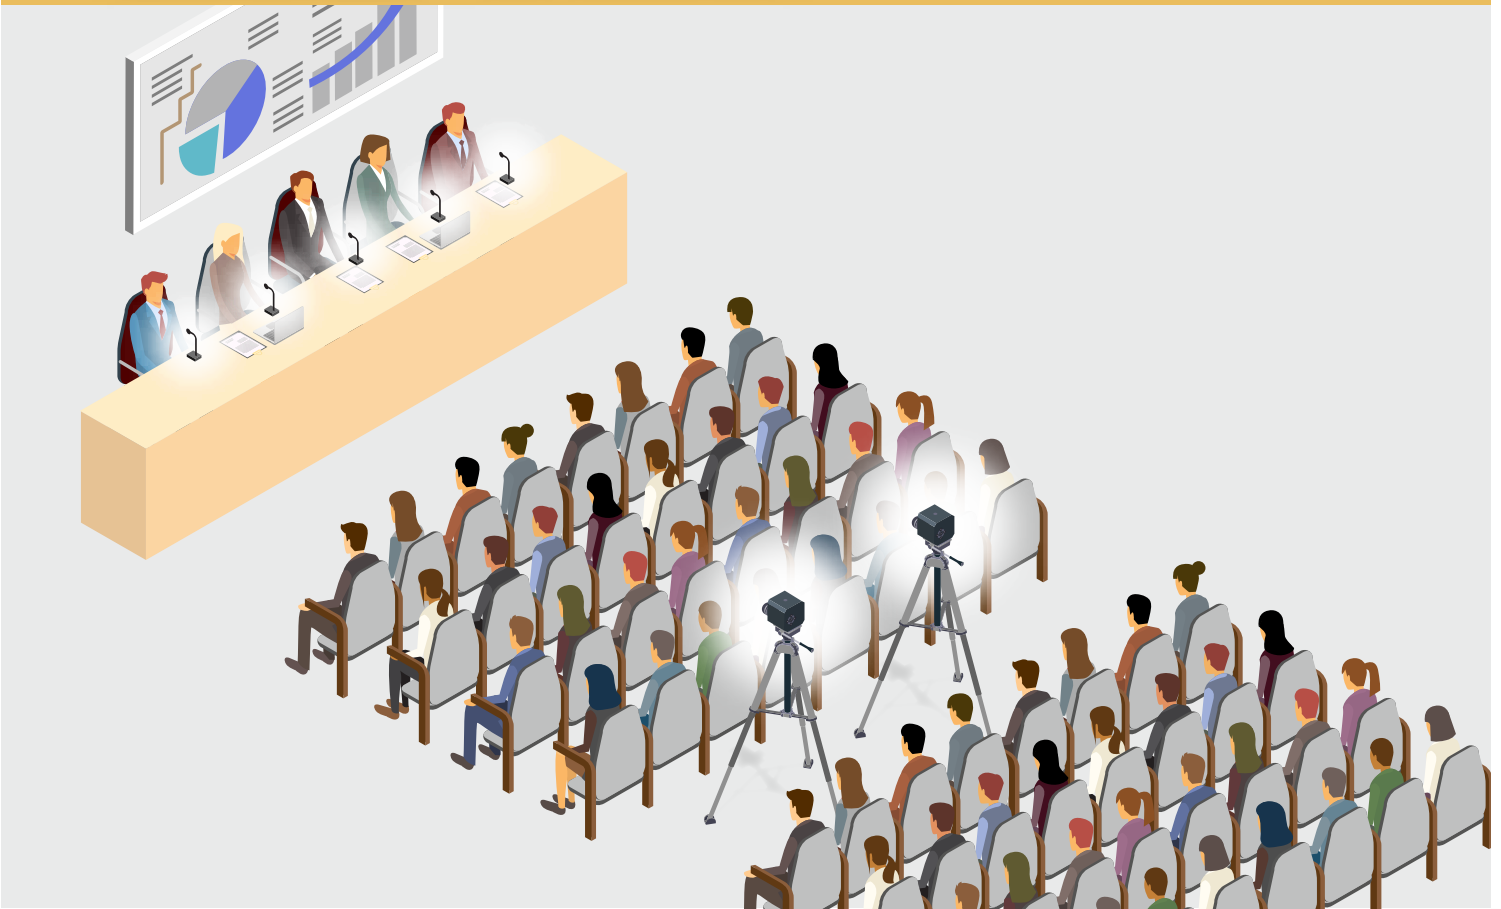

Simultaneous streaming and video conferencing

Output high quality full HD video to a large display or projector while simultaneously streaming and integrating with video conferencing applications such as Zoom, Teams and Google Hangouts.

CouncilCast Plus Solution

Automated Camera Operation

The VoiceTrx100's voice-activation feature automates the camera switching and movement, focusing on the active speaker without the need for a cameraman or switcher operator.

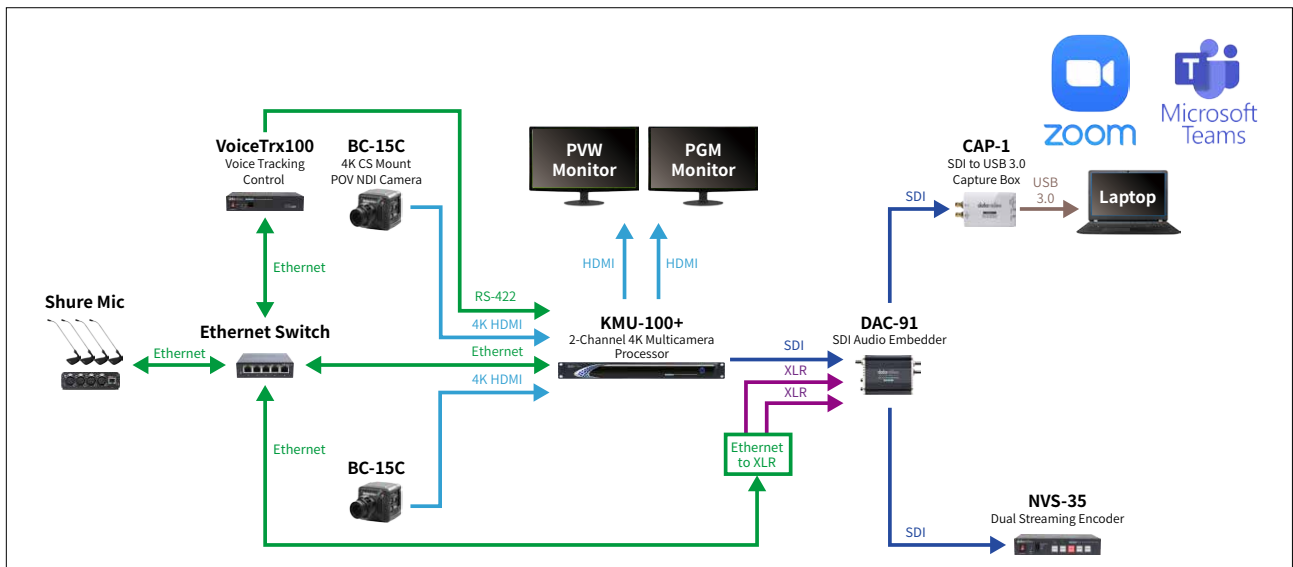

Efficient Coverage with Fewer Cameras

Utilizing just two BC-15C POV cameras in combination with the KMU-100+ allows for extensive coverage of the panel. The KMU-100+ can extract multiple HD shots from these 4K sources, simulating a multi-camera setup and ensuring coverage of all speakers.

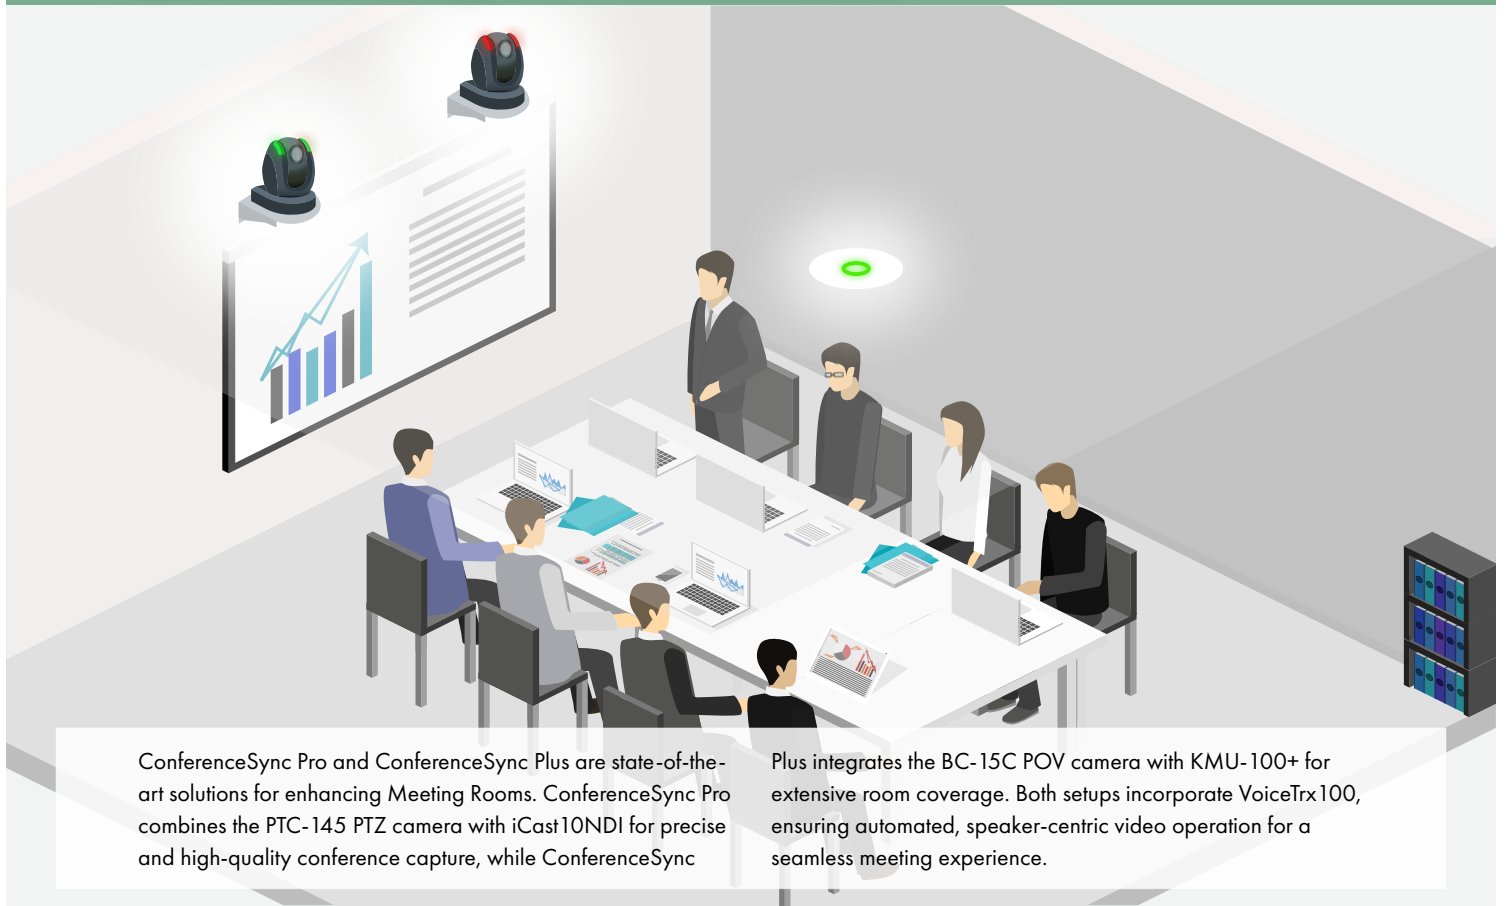

Cost-Effectiveness and Simplified Setup

This setup reduces the need for a large crew and multiple cameras, leading to significant cost savings. Additionally, the KMU-100+ offers instant switching, ideal for scenario's with fast paced exchanges.

ConferenceSync Pro Solution

ConferenceSync Pro and ConferenceSync Plus are state-of-the-art solutions for enhancing Meeting Rooms. ConferenceSync Pro combines the PTC-145 PTZ camera with iCast10NDI for precise and high-quality conference capture, while ConferenceSync

Plus integrates the BC-15C POV camera with KMU-100+ for extensive room coverage. Both setups incorporate VoiceTrx100, ensuring automated, speaker-centric video operation for a seamless meeting experience.

Automated Camera Operation

Using ceiling microphone voice detection, the VoiceTrx100 automatically switches and moves cameras to focus on the active speaker, eliminating the need for a manual cameraman or switcher operator.

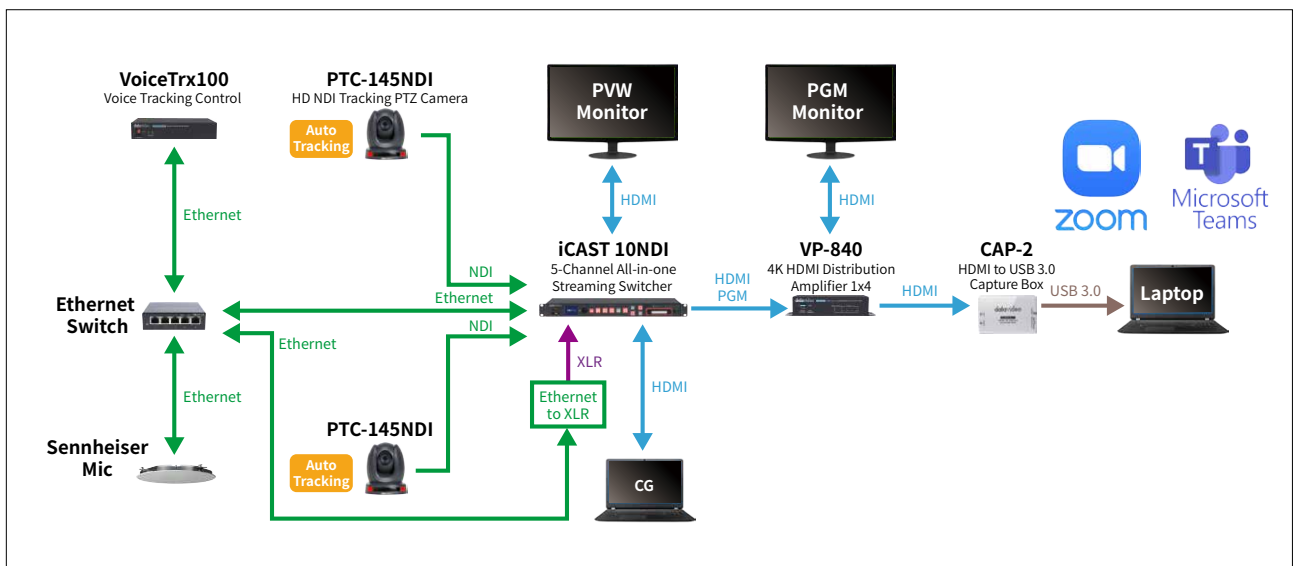

Broadcast-Style Switching

Employing two cameras, we can smoothly reposition the camera that is not currently in view to the next active speaker. This approach allows for clean cuts to the new angle, ensuring the online audience sees only the composed shots, without any camera movement.

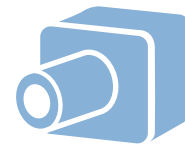

AI Framing

Utilizing the powerful AI technology built into our PTZ cameras we can frame the active speaker to ensure they are correctly positioned.

ConferenceSync Plus Solution

Automated Camera Operation

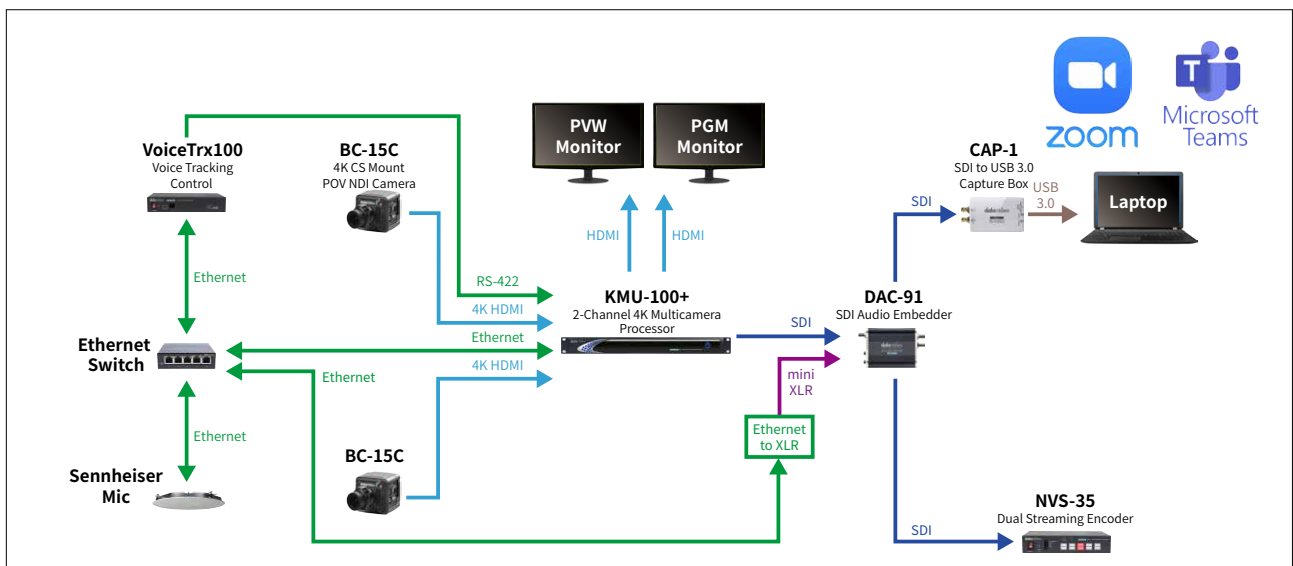

With voice detection from ceiling-mounted microphones, the VoiceTrx100 streamlines camera control by automatically switching the video focus to the active speaker, thus reducing the need for manual camera and switcher operation.

Instant switching

Our unique region of interest switching technology allows instant switching between shots - no need to wait for a mechanical PTZ to move to position and auto-focus. Ideal for fast paced exchanges.

Efficient coverage with fewer cameras

Utilizing just two BC-15C POV cameras in combination with the KMU-100+ allows for extensive coverage of the panel. The KMU-100+ can extract multiple HD shots from these 4K sources, simulating a multi-camera setup and ensuring coverage of all speakers.

3 YEAR WARRANTY

One of the core values of Datavideo is service. To make sure that every user of Datavideo equipment has a trustworthy experience, we do our utmost best, day after day, year after year. We are confident that our products give you reliable service and we back that confidence with a one year warranty period.

On most products, it's possible to extend that warranty for an extra two years after registering. Please make sure to register your Datavideo product directly after purchasing for a 3-year warranty.

Our Technology Partners

Together with Sennheiser, Datavideo is bringing a complete audio and video controlling and switching solution to your conference rooms and huddle spaces. You can now share your meetings online without the need of a production team.

Compatible with a Variety of Platforms

Effortlessly connect and play seamlessly with popular video conferencing platforms such as Zoom, Google Meet, Skype, Microsoft Teams, Webex, GoToMeeting, and others. Our products are designed to work seamlessly on Windows, Mac, and Chromebooks.
