HMD Pulse+ easily runs lots of apps at once, and repairing it at home is simple, too. But choosing the best photos to share? That might get tricky. The 50 MP rear camera will bring star quality to even your casual snaps. And with up to 59 hours of battery life², nothing will get in the way of your impromptu photo shoots.

Every shot is a keeper

Meet your very own content creation partner. With its 50 MP rear camera HMD Pulse+ lets you snap quality pictures with ease, even in tough lighting conditions. If only all creative collabs were this easy.

Become a multitask master

Have you ever been slowed down by those multiple apps running in the background that your forgot to close? Not a problem with HMD Pulse+. It gives you up to 4-8 GB of virtual memory¹ that keeps things running without a hitch.

No more "where's my charger!" panics

When it's running low, that battery icon can feel like a ticking clock – you're just counting the minutes until it runs empty. Well, HMD Pulse+ gives you up to 59 hours of battery life² per charge. So if you lose your charger, you'll have plenty of time to find it.

RIY: Repair It Yourself

You don't need a degree in engineering to repair HMD Pulse+. Replace a damaged display, bent charging port, scratched back cover or a depleted battery. Just head to the HMD Phones Repair Hub for spare parts and step-by-step guides³. The power to repair was inside you all along.

⁴From the global launch date of HMD Pulse+

⁵Pre-installed system software and apps use a significant part of memory space.

⁶Battery has limited recharge cycles and battery capacity reduces over time. Eventually the battery may need to be replaced.

⁷Battery has been tested by HMD Global to maintain at least 80% of its original capacity after 800 full charging cycles.
