

Antec NEON 120

PWM ARGB FAN

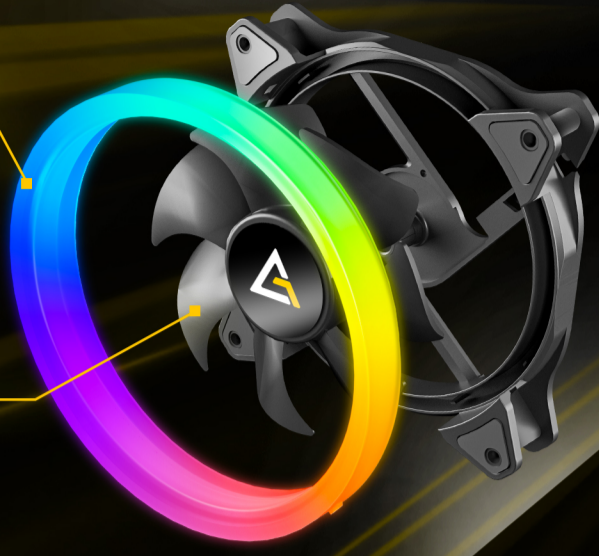

Personalize RGB lighting

Unlimited color transformation, achieving magical lighting effects with multiple-choice controls and multiple different modes.

Highly Efficient Ventilation

Fan blade design balances airflow and loadness, providing highly efficient ventilation (800-1600 RPM±10%), superior air pressure and airflow (1.38 mmH₂O / 35 CFM) and low acoustic pressure level (25.6 dBA).

Hydraulic Bearing Fan

Hydraulic bearing provides long-lasting, near-silent operation.

Anti-Vibration Pads

Anti-vibration pads reduce vibration when the fan is operating.

Two Individual Cables

3-Pin ARGB connector & 4-Pin PWM connector.

QUIET OPERATION

Rubber pads and hydro bearing help the fan run quietly.

SYNCHRONIZABLE RGB LIGHTING IN 2 WAYS

Sync with major MOBO houses including Gigabytes, Asus & MSI, or sync with the Control Hub which is included in the 3-in-1 pack.
