

Keep an eye on your home's interior with our Yale Smart Indoor Camera.

Ideal for pet owners, parents who want to keep an eye on their kids, or anyone who want to keep watch inside their home while they are away with the Yale Home app, the Smart Indoor Camera provides crisp 1080p Full HD image, live view, motion-triggered recordings, night vision, rich notifications, a two-way audio talk feature, and integration with leading voice assistants.

With customisable detection zone & scheduling you can define specific areas you want your camera to cover, and use motion scheduling to exclude notification triggers from regular occurrences.

App control

Control and monitor your house using the Yale Home app, from anywhere in the world

Privacy mode

Camera can turn off automatically when you come home*

Human detection

Enable Human Detection to minimise unnecessary notifications

- Full 1080p HD image around the clock with live view and night vision
- Motion detection feature with the option to customize detection zones
- Easy to set up both hardware and software
- Receive an app notification with thumbnail when motion is detected
- Use the two way audio to speak and listen through the camera
- Have the camera standing on a table or mount it on a wall with the mounting plate
- Adjustable camera head that can be rotated 360° and folded 90° for optimized viewing angles

*Requires a Yale Smart Lock or a Smart Alarm. For example, when you unlock the door with a Yale Smart Lock and/or disarm the alarm, your camera goes into privacy mode.
