

# Wieland Connecting Leads & Connectors

- 13A Plug to Female Wieland\* Mains leads
- Male to female Wieland\* interconnecting leads
- Re-wireable Wieland\* connectors
- Wieland\* coupler blocks
- GST is 20A rated and complies with European harmonising Standard IEC61535:2009
- Other lengths are available on request

All of our desktop and under desk units need our Start leads to power up. This method is used to allow for multi length cables to keep the work space better managed, Interconnecting leads are used to daisy chain between desks when using Power Pack or desktops connected using coupler blocks.

---
