# Guards against accidental disconnection of Computers, PDU's, Servers and most Network Devices.

IEC LOCK+ ™

'Unique' Female C13 connector

Suitable for use with 'ANY STANDARD' C14 inlet

- Designed for use in tight spaces
- Allows Data Centre personnel to easily identify the locking cable
- Protects appliances that are vulnerable to vibration
- Connector cannot be accidentally pulled or vibrated out of the inlet

The IEC Lock+ does not require any extra tools to remove

How it works!

IEC LOCK™

- Push the connector into the standard IEC inlet and it is locked in position

- Connector **CANNOT** be accidentally pulled or vibrated out of the inlet

- Slide back the 'red' tab to release and remove connector from inlet
