Hardware Setup

1.1. Packing Contents

1. Device X 1

2. RJ50 to DB9 COM port adapter cable X 2

3. Power Adapter X 1

4. Manual DVD X 1

1.2. Quick Tour

Front View

LED Indicator:

The **Power** indicator will glow green when power is on.

The **Storage** indicator will blink green when the SATA storage is accessed.

The **LAN** indicator will blink green when transferring data through the LAN.

Back View

Back Panel I/O

I/O Functions:

- A. 1 x 3.5mm Combo Audio jack
- B. 1 x mini-DisplayPort
- C. 2 x RS232 by RJ50 (COM4 / COM3), include RJ50 to DB9 convert cable
- D. 2 x RS232 by DB-9 (COM2 / COM1)
- E. 2 x 12V PoweredUSB
- F. 1 x 24V PoweredUSB
- G. 4 x USB3.0
- H. 1 x Gigabit Ethernet (RJ-45)
- I. 1 x Cash Drawer (RJ12)
- J. 1 x 24VDC input, 4-pins jack

1.3. Basic Peripherals Installation

All cables and wires from peripherals to the Point Of Sale (POS) device are recommended to be connected as the direction as shown below.

Power Adapter
Important!

Plug the AC adapter into the Point Of Sale (POS), and then connect to the mains power supply.

Connect the 4-pin output jack of the adapter to the **DC 24V** jack on the back panel of the device.

USB Mouse, USB Keyboard and USB Optical Disk Driver (ODD)

Connect your USB Mouse, USB Keyboard and USB Optical Disk Driver (ODD) to **USB** ports on the back panel of the device.

NOTE: The USB male length needs to be less than 57mm.

LAN Cable

Connect one end of RJ-45 LAN cable to the **LAN** port on the back panel of the device, and the other end to your internet device.

Cash Drawer

Connect one end of RJ-12 cable to the Cash Drawer port on the back panel of the device, and the other end to your cash drawer.

2nd Display

1. Remove the top peripheral mounting hole cover from the device and pull out the connector from the device.

2. Adjust the hinge of the custom monitor (2nd display), and then connect to the device as shown below.

NOTE: 2nd display cable need remove the connector cover first.

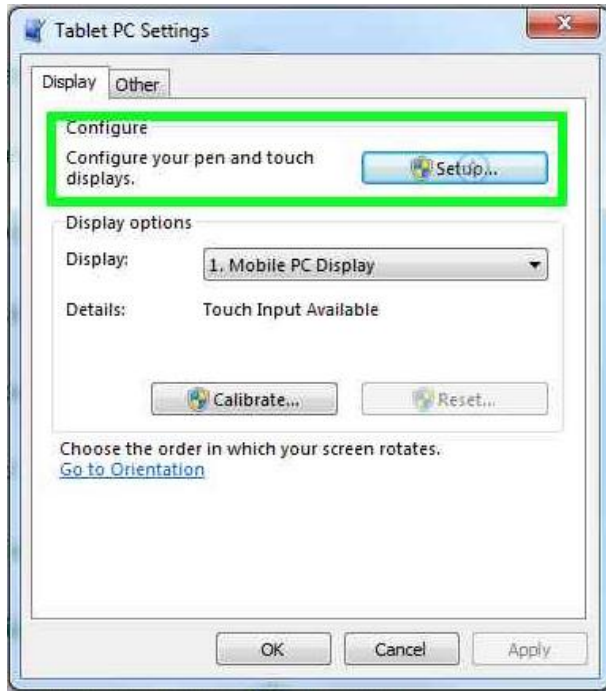

3. Mount the customer display to the device and tighten the two PHILLIPS M3 screws as shown below.

4. Please install **2nd display USB driver** after device installation.
Please visit product web site and get driver: <http://service.ebn.com.tw/tgcs>

5. For the current main display touch function work, you may need to perform the following steps to correct the mapping. Run "Tablet PC Settings" on the Windows Control Panel and click the "Settings" button.

Following the display instruction, manually touching the touch screen twice, then the main touch will operate correctly on the main display.

Customer VFD

1. Remove the top peripheral mounting hole cover from the device and pull out the connector from the device.

2. Adjust the hinge of the custom monitor (customer VFD), and then connect to the device as shown below.

NOTE: VFD cable need remove the connector cover first.

3. Mount the customer display to the device and tighten the two PHILLIPS M3 screws as shown below.

4. Please install driver/utility after device installation.
Please visit product web site and get driver: <http://service.ebn.com.tw/tgcs>

MSR + iButton

NOTE: MSR + iButton only can be installed on the right side.

1. Remove the right side peripheral cover from the system.

2. Install the adaptor.

3. Connect the cable of the MSR + iButton assembly to the system.

NOTE: MSR + iButton cable need remove the connector cover

4. Combine the MSR + iButton into side peripheral door of system, tighten the two PHILLIPS M3 screws to fix the MSR assembly as shown below.

5. Please install driver/utility after device installation.

Please visit product web site and get driver: <http://service.ebn.com.tw/tgcs>

1.4. Replacing M.2 Storage

1. Remove the cable cover and slightly uplift first.
2. Remove all IO cables. (LAN, 24V /12V PUSB, RS232, CD & USB)
3. Release 2 thumb screws of System board Box then slightly slide down
4. Hold system board box with one hand and slightly uplift the pulling tab with another hand

5. Loosen screw with #1 Philips screw driver and remove the M.2 from the slot.

6. Align and insert the new M.2 storage in the slot and push end down into place and tighten the screw.

7. Close the system board box carefully then place system board box into POS terminal system correctly.

1.5. Replacing Memory Module

1. Follow Section 1.4 step 1 to step 4, then can get system board box open.
2. Release the two ejectors on the slot by pushing them and remove the memory module from the slot.

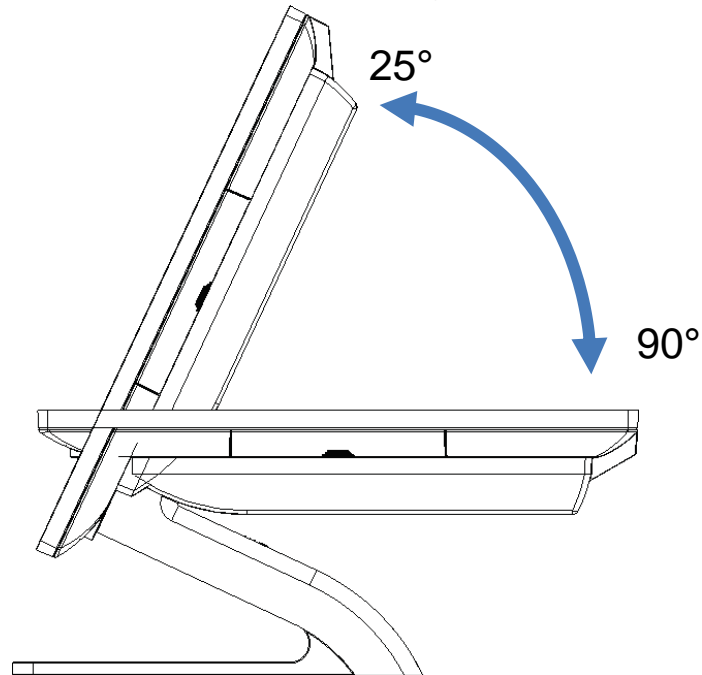

3. Align and insert the new memory module in the slot and push both ends down until the ejectors snap into place.

4. Close the system board box carefully then place system board box into POS terminal system correctly.

1.6. Adjust Tilting Angle

The tilt angle of the operator's display can be adjusted freely from 25° to 90°. Hold both sides of the LCD frame, and slowly push the display upward/ downward to your best angle.

1.7. Turn On The Device

1. Make sure all peripherals are connected properly.
2. Press and hold the power switch until the power indicator on the front panel glow green.

2.

I/O Definition

Please refer the detailed technical information about all I/O ports as followings.

2.1. Serial Port

COM1/COM2 by direct DB9 connector, COM3/COM4 by RJ45 connector with convert to DB9 cable.

DB9 pin9 with NA/5V/12V by BIOS selection.

RS-232			
PIN	Description	PIN	Description
1	DCD	6	DSR
2	RXD	7	RTS
3	TXD	8	CTS
4	DTR	9	NA / 5V / 12V
5	GND		

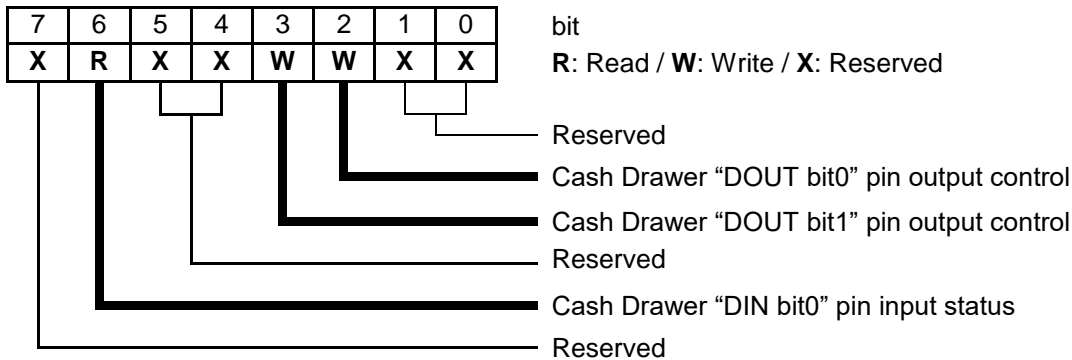

PIN	Description	PIN	Description
1	GND	4	24V
2	D_OUT0	5	D_OUT1
3	D_IN	6	GND

Cash Drawer Control

The Cash Drawer Controller use one I/O address to control the Cash Drawer.

Register Location: 48Ch
Attribute: Read / Write
Size: 8-bit

bit	7	6	5	4	3	2	1	0
Attribute	Reserved	Read	Reserved	Write	Reserved	Write	Reserved	Reserved

- BIT7: Reserved
- BIT6: Cash Drawer "DIN bit0" pin input status.
 = 1: The Cash Drawer opened
 = 0: The Cash Drawer closed or no Cash Drawer
- BIT5: Reserved
- BIT4: Reserved
- BIT3: Cash Drawer "DOUT bit1" pin output control.
 = 1: Opening the Cash Drawer
 = 0: Allow close the Cash Drawer
- BIT2: Cash Drawer "DOUT bit0" pin output control.
 = 1: Opening the Cash Drawer
 = 0: Allow close the Cash Drawer
- BIT1: Reserved
- BIT0: Reserved

Cash Drawer Control Command Example (Use Debug.EXE program under DOS)

Command	Cash Drawer
O 48C 04	Opening
O 48C 00	Allow to close

- Set the I/O address 48Ch bit2 =1 for opening Cash Drawer by “DOUT bit0” pin control.
- Set the I/O address 48Ch bit2 =0 for allow close Cash Drawer.

Command	Cash Drawer
I 48C	Check status

- The I/O address 48Ch bit6 =1 mean the Cash Drawer is opened or not exist.
- The I/O address 48Ch bit6 =0 mean the Cash Drawer is closed.

Preparing Your POS PC For Wall-mounting

3.1. What You Need

1. A PHILLIPS M3 screwdriver and flathead screwdriver (magnetic-tipped recommended)
2. A PHILLIPS M4 screwdriver and flathead screwdriver (magnetic-tipped recommended)
3. Antistatic wrist strap and conductive foam pad to stand on while working on the POS PC (recommended)

3.2. Safety Information

This product has not been evaluated for connection to power system (an AC distribution system with no direct connection to the earth, according to IEC 60950).

WARNING! The POS PC is heavy. Take proper precautions when lifting or moving your POS PC.

WARNING! Always disconnect the POS PC from the power source before removing the stand. Failure to do so before you perform any procedures can result in personal injury or equipment damage.

WARNING! Avoid touching sharp edges inside the POS PC.

3.3. Before Removing The Stand

To avoid injury and equipment damage when opening the POS PC, always complete the following steps in order:

1. Remove any media and external devices (such as any CD, DVD, memory cards, USB devices, or external hard disk drives) from the POS PC.

CAUTION: Static electricity can damage the electronic components of the POS PC or optional equipment. Ensure that you are discharged of static electricity by briefly touching a grounded metal object.

2. Tap the Windows Start button and then tap Shut Down.

WARNING! To reduce the risk of personal injury from electrical shock or hot surfaces, disconnect the power cord from the wall outlet, and allow the internal system components to cool before touching them.

3. After the system has completely shut down, disconnect the power adapter from of the POS PC.
4. Disconnect all other attached cables from the back of the POS PC.

3.4. Removing The POS PC Stand

1. Remove the cable cover from the POS PC.

2. Release 2 thumb screws of System board Box then slightly slide down.

3. Use a Phillips M3 screwdriver to remove the five screws on the bracket plate.

4. Lift the stand away from the touch monitor

5. Place back the System board Box using a Phillips screwdriver to tighten the two screws.

6. Align the cable cover to the System board Box and snap it back into place. Make sure that there are no gaps between the System board Box and the cable cover.

3.5. Installing The VESA

1. Attach the VESA wall-mounting plate to the back of the POS PC, using a Phillips M4 screwdriver to tighten the four screws. It should take about 5–10 turns of the screwdriver to secure the screws.

CAUTION: The VESA wall-mounting plate is not accessory. The illustration is for user reference only.

4.

Reinstalling The POS PC Stand

4.1. What You Need

1. A PHILLIPS M3 screwdriver and flathead screwdriver (magnetic-tipped recommended)
2. A PHILLIPS M4 screwdriver and flathead screwdriver (magnetic-tipped recommended)
3. Antistatic wrist strap and conductive foam pad to stand on while working on the POS PC (recommended)

4.2. Safety Information

This product has not been evaluated for connection to power system (an AC distribution system with no direct connection to the earth, according to IEC 60950).

WARNING! The POS PC is heavy. Take proper precautions when lifting or moving your POS PC.

WARNING! Always disconnect the POS PC from the power source before removing the stand. Failure to do so before you perform any procedures can result in personal injury or equipment damage.

WARNING! Avoid touching sharp edges inside the POS PC.

4.3. Before Reinstalling The Stand

To avoid injury and equipment damage when opening the POS PC, always complete the following steps in order:

1. Remove any media and external devices (such as any CD, DVD, memory cards, USB devices, or external hard disk drives) from the POS PC.

CAUTION: Static electricity can damage the electronic components of the POS PC or optional equipment. Ensure that you are discharged of static electricity by briefly touching a grounded metal object.

2. Tap the Windows Start button and then tap Shut Down.

WARNING! To reduce the risk of personal injury from electrical shock or hot surfaces, disconnect the power cord from the wall outlet, and allow the internal system components to cool before touching them.

3. After the system has completely shut down, disconnect the power adapter from of the POS PC.
4. Disconnect all other attached cables from the back of the POS PC.

4.4. Reinstalling The POS PC Stand

1. Use a Phillips M4 screwdriver remove wall-mounting back four screws.

2. Remove the cable cover from the POS PC

3. Release 2 thumb screws of System board Box then slightly slide down.

4. Put back the stand away from the touch monitor.

5. using a Phillips M3 screwdriver to tighten the five screws. It should take about 5–10 turns of the screwdriver to secure the screws.

6. Place back the System board Box using a Phillips screwdriver to tighten the two screws.

7. Align the cable cover to the System board Box and snap it back into place. Make sure that there are no gaps between the System board Box and the stand cover.

Specification

5.1. Basic Specification

Main Board	
CPU	Intel® Bay Trail-Mobile/Desktop SoC Processor: - Celeron® J1900 (4 cores, up to 2.42 GHz, TDP 10 Watt)
System Memory	SO-DIMM DDR3L 1067/1333MHz x 1, Max. 8GB
Graphic	Intel® HD Graphics
Thermal Solution	Fan-less
BIOS	Phoenix uEFI BIOS
O.S. Support	Windows 7, WES 7, POSReady 7 Windows 8.1, Windows Embedded 8.1 Standard/Industry Retail Windows 10 IoT Linux kernel 4.0+ & associated distributions
Display	
Display Size	15" 4:3 Industrial grade panel
Panel backlight type	LED
Brightness	250 nits (typ. w/o touch)
Resolution	1024 x 768
Touch Screen	10-points P-CAP type
Front panel type	Bezel-Free
Tilting Angle	25°~90°
Storage Device	
Interface	SATA (3.0 Gb/S) x 1
SSD	m.2 support B+M type. 2280 slot x 1
I/O Ports	
Audio	3.5mm 4 conductor Combo CTIA Audio jack x 1 (Line-out and Mic-in)
Video	Mini DisplayPort x 1
Serial	COM1/COM2: DB9, RS232, pin9 with NA/5V/12V by BIOS selection COM3/COM4: RJ50 with convert to DB9 cable, DB9 pin9 with NA/5V/12V by BIOS selection
USB	12V PoweredUSB x 2 24V PoweredUSB x 1 USB 3.0 x 4
LAN	Gigabit Ethernet by RJ-45 x 1, support Wake on LAN, support boot from LAN
Cash Drawer	RJ12, support 24V DC cash drawer x 1
DC-in	24V DC input, 4pins jack x 1
Power button	Power Button with indicator LED x 1
Others	
Speaker	2Watt mono internal Speaker x 1 PC Beeper x 1
Power Supply	External adapter, 24V DC input, 130Watt, 100-240 Vac
Color	Black
Protection	IP65 for front panel
Material	Die-cast Aluminum Alloy / SECC / Plastic

Certifications	CE / FCC / VCCI / WEEE / RoHS
Dimension (W x D x H)	360 x 193 x 316 mm (14.2 x 7.6 x 12.4 inch)
Net Weight	5 kg, 11 lb
Gross Weight	6.5 kg, 14 lb
Environmental	
Operating Temperature	0°C ~ 40°C
Storage Temperature	-20°C ~ 60°C
Humidity	20% to 85% RH (non-condensing)

5.2. Options

Option	Description	
2nd Display	Size	10.1" Industrial grade panel
	Panel backlight type	LED with 30K hours of life
	Brightness	350 nits (typ. w/o touch)
	Resolution	1024 x 600
	Interface	USB
	Dimension (W x D x H)	26.2 x 4.2 x 16.9 cm (10.4 x 1.7 x 6.6 inch)
	Net Weight / Gross Weight	1.2 kg (2.7 lb)
	Color	Black
Customer VFD	20 Characters x 2 lines VFD dot display to be installed onto the POS terminal	
MSR	ISO Track 1,2,3 type magnetic card reader kit (Magnetic stripe card is not included)	
MSR + iButton	MSR+ iButton unit to be installed onto the POS terminal (Magnetic stripe card, iButton key is not included)

confirm the accuracy of performance, compatibility or any other claims related to non-Toshiba Global Commerce Solutions products. Questions on the capabilities of non-Toshiba Global Commerce Solutions products should be addressed to the suppliers of those products.

This information is for planning purposes only. The information herein is subject to change before the products described become available.

Telecommunication regulatory statement - Nonwireless

This product is not intended to be connected directly or indirectly by any means whatsoever to interfaces of public telecommunications networks, nor is it intended to be used in a public services network.

Electronic emission notices

When you attach a monitor to the equipment, you must use the designated monitor cable and any interference suppression devices that are supplied with the monitor.

Federal Communications Commission (FCC) statement

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference, in which case the user will be required to correct the interference at his own expense.

Properly shielded and grounded cables and connectors must be used in order to meet FCC emission limits. Toshiba Global Commerce Solutions is not responsible for any radio or television interference caused by using other than recommended cables and connectors or by unauthorized changes or modifications to this equipment. Unauthorized changes or modifications could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Industry Canada Class A Emission Compliance statement

This Class A digital apparatus complies with Canadian ICES-003.

Avis de conformité à la réglementation d'Industrie Canada

Cet appareil numérique de la classe A est conforme à la norme NMB-003 du Canada.

European Union Electromagnetic Compatibility (EMC) Directive Conformance Statement

This product is in conformity with the protection requirements of EU Council Directive 2014/30/EU on the approximation of the laws of the Member States relating to electromagnetic compatibility. Toshiba Global Commerce Solutions cannot accept responsibility for any failure to satisfy the protection requirements resulting from a non-

recommended modification of the product, including the fitting of non-Toshiba Global Commerce Solutions option cards.

This product has been tested and found to comply with the limits for Class A Information Technology Equipment according to CISPR 32/European Standard EN 55032. The limits for Class A equipment were derived for commercial and industrial environments to provide reasonable protection against interference with licensed communication equipment.

Attention: This is a Class A product. In a domestic environment this product may cause radio interference, in which case the user may be required to take adequate measures.

Germany Class A statement

Deutschsprachiger EU Hinweis: Hinweis für Geräte der Klasse A EU-Richtlinie zur Elektromagnetischen Verträglichkeit

Dieses Produkt entspricht den Schutzanforderungen der EU-Richtlinie 2014/30/EU zur Angleichung der Rechtsvorschriften über die elektromagnetische Verträglichkeit in den EU-Mitgliedsstaaten und hält die Grenzwerte der EN 55032 Klasse A ein.

Um dieses sicherzustellen, sind die Geräte wie in den Handbüchern beschrieben zu installieren und zu betreiben. Des Weiteren dürfen auch nur von der Toshiba Global Commerce Solutions empfohlene Kabel angeschlossen werden. Toshiba Global Commerce Solutions übernimmt keine Verantwortung für die Einhaltung der Schutzanforderungen, wenn das Produkt ohne Zustimmung der Toshiba Global Commerce Solutions verändert bzw. wenn Erweiterungskomponenten von Fremdherstellern ohne Empfehlung der Toshiba Global Commerce Solutions gesteckt/eingebaut werden.

EN 55032 Klasse A Geräte müssen mit folgendem Warnhinweis versehen werden: "Warnung: Dieses ist eine Einrichtung der Klasse A. Diese Einrichtung kann im Wohnbereich Funk-Störungen verursachen; in diesem Fall kann vom Betreiber verlangt werden, angemessene Maßnahmen zu ergreifen und dafür aufzukommen."

Deutschland: Einhaltung des Gesetzes über die elektromagnetische Verträglichkeit von Geräten

Dieses Produkt entspricht dem "Gesetz über die elektromagnetische Verträglichkeit von Geräten (EMVG)". Dies ist die Umsetzung der EU-Richtlinie 2014/30/EU in der Bundesrepublik Deutschland.

Zulassungsbescheinigung laut dem Deutschen Gesetz über die elektromagnetische Verträglichkeit von Geräten (EMVG) (bzw. der EMC EG Richtlinie 2014/30/EU) für Geräte der Klasse A

Dieses Gerät ist berechtigt, in Übereinstimmung mit dem Deutschen EMVG das EG-Konformitätszeichen - CE - zu führen.

Verantwortlich für die Einhaltung der EMV Vorschriften ist der Hersteller:

Toshiba Global Commerce Solutions
3901 South Miami Blvd.
Durham, NC 27703

Cable ferrite requirement

All cable ferrites are required to suppress radiated EMI emissions and must not be removed.

Electrostatic discharge (ESD)

Attention: Electrostatic discharge (ESD) damage can occur when there is a difference in charge between the part, the product, and the service person. No damage will occur if the service person and the part being installed are at the same charge level.

ESD damage prevention

Anytime a service action involves physical contact with logic cards, modules, back-panel pins, or other ESD sensitive (ESDS) parts, the service person must be connected to an ESD common ground point on the product through the ESD wrist strap and cord.

The ESD ground clip can be attached to any frame ground, ground braid, green wire ground, or the round ground prong on the AC power plug. Coax or connector outside shells can also be used.

Handling removed cards

Logic cards removed from a product should be placed in ESD protective containers. No other object should be allowed inside the ESD container with the logic card. Attach tags or reports that must accompany the card to the outside of the container.

Product recycling and disposal

This unit must be recycled or discarded according to applicable local and national regulations. Toshiba Global Commerce Solutions encourages owners of information technology (IT) equipment to responsibly recycle their equipment when it is no longer needed. Toshiba Global Commerce Solutions offers a variety of product return programs and services in several countries to assist equipment owners in recycling their IT products. Information on Toshiba Global Commerce Solutions product recycling offerings can be found on the Toshiba Global Commerce Solutions product recycling programs website at <https://www.toshibacommerce.com/>.

Español: Esta unidad debe reciclarse o desecharse de acuerdo con lo establecido en la normativa nacional o local aplicable. Toshiba Global Commerce Solutions recomienda a los propietarios de equipos de tecnología de la información (TI) que reciclen responsablemente sus equipos cuando éstos ya no les sean útiles. Toshiba Global Commerce Solutions dispone de una serie de programas y servicios de devolución de productos en varios países, a fin de ayudar a los propietarios de equipos a reciclar sus productos de TI. Se puede encontrar información sobre las ofertas de reciclado de productos de Toshiba Global Commerce Solutions en el sitio web Toshiba Global Commerce Solutions product recycling programs at <https://www.toshibacommerce.com/>.

Note: This mark applies only to countries within the European Union (EU) and Norway.

Appliances are labeled in accordance with European Directive 2012/19/EU concerning waste electrical and electronic equipment (WEEE). The Directive determines the framework for the return and recycling of used appliances as applicable throughout the European Union. This label is applied to various products to indicate that the product is not to be thrown away, but rather reclaimed upon end of life per this Directive.

Remarque : Cette marque s'applique uniquement aux pays de l'Union Européenne et à la Norvège. L'étiquette du système respecte la Directive européenne 2012/19/EU en matière de Déchets des Equipements Electriques et Electroniques (DEEE), qui détermine les dispositions de retour et de recyclage applicables aux systèmes utilisés à travers l'Union européenne. Conformément à la directive, ladite étiquette précise que le produit sur lequel elle est apposée ne doit pas être jeté mais être récupéré en fin de vie.

注意: このマークは EU 諸国およびノルウェーにおいてのみ適用されます。

この機器には、EU 諸国に対する廃電気電子機器指令2012/19/EU(WEEE) のラベルが貼られています。この指令は、EU 諸国に適用する使用済み機器の回収とリサイクルの骨子を定めています。このラベルは、使用済みになった時に指令に従って適正な処理をする必要があることを知らせるために種々の製品に貼られています。

In accordance with the European WEEE Directive, electrical and electronic equipment (EEE) is to be collected separately and to be reused, recycled, or recovered at end of life. Users of EEE with the WEEE marking per Annex IV of the WEEE Directive, as shown above, must not dispose of end of life EEE as unsorted municipal waste, but use the collection framework available to customers for the return, recycling, and recovery of WEEE. Customer participation is important to minimize any potential effects of EEE on the environment and human health due to the potential presence of hazardous substances in EEE. For proper collection and treatment, contact

your local Toshiba Global Commerce Solutions representative.

Disposal of IT products should be in accordance with local ordinances and regulations.

Battery safety

警告：本電池包含鋰。為避免爆炸，請勿焚燒電池或對其充電。

請勿：把電池投入或浸入水中、把電池加熱到 100°C (212°F) 以上、修理或拆卸。 (C003)

注 意

用錯誤型號電池更換會有爆炸危險

務必按照說明處置用完的電池

Caution: Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.

警 告：

如果更換不正確之電池型式會有爆炸的風險。

請依製造商說明書處裡用過之電池。

Battery return program

This product may contain sealed lead acid, nickel cadmium, nickel metal hydride, lithium, or lithium ion battery. Consult your user manual or service manual for specific battery information. The battery must be recycled or disposed of properly. Recycling facilities may not be available in your area. For information on disposal of batteries outside the United States, go to the Battery disposal website at <https://www.toshibacommerce.com/> or contact your local waste disposal facility.

電池回收計劃

本產品可能含有密封的鉛酸、鎳鎘、鎳氫、鋰或鋰離子電池。關於特定的電池信息，請參閱用戶手冊或服務手冊。電池必須妥善地回收或處理，您所在地區可能沒有回收設施。關於在美國以外地區處理電池的信息，請參閱電池處理網站：<https://www.toshibacommerce.com/> 或聯系您當地的廢物處理設施。

For Taiwan:

廢電池請回收

Please recycle batteries.

For the European Union:

Notice: This mark applies only to countries within the European Union (EU)

Batteries or packaging for batteries are labeled in accordance with European Directive 2013/56/EU concerning batteries and accumulators and waste batteries and accumulators. The Directive determines the framework for the return and recycling of used batteries and accumulators as applicable throughout the European Union. This label is applied to various batteries to indicate that the battery is not to be thrown away, but rather reclaimed upon end of life per this Directive.

Les batteries ou emballages pour batteries sont étiquetés conformément aux directives européennes 2013/56/EU, norme relative aux batteries et accumulateurs en usage et aux batteries et accumulateurs usés. Les directives déterminent la marche à suivre en vigueur dans l'Union Européenne pour le retour et le recyclage des batteries et accumulateurs usés. Cette étiquette est appliquée sur diverses batteries pour indiquer que la batterie ne doit pas être mise au rebut mais plutôt récupérée en fin de cycle de vie selon cette norme.

バッテリーあるいはバッテリー用のパッケージには、EU 諸国に対する廃電気電子機器指令 2013/56/EU のラベルが貼られています。この指令は、バッテリーと蓄電池、および廃棄バッテリーと蓄電池に関するものです。この指令は、使用済みバッテリーと蓄電池の回収とリサイクルの骨子を定めているもので、EU 諸国にわたって適用されます。このラベルは、使用済みになったときに指令に従って適正な処理をする必要があることを知らせるために種々のバッテリーに貼られています。

In accordance with the European Directive 2013/56/EU, batteries and accumulators are labeled to indicate that they are to be collected separately and recycled at end of life. The label on the battery may also include a chemical symbol for the metal concerned in the battery (Pb for lead, Hg for mercury and Cd for cadmium). Users of batteries and accumulators must not dispose of batteries and accumulators as unsorted municipal waste, but use the collection framework available to customers for the return, recycling and treatment of batteries and accumulators.

Customer participation is important to minimize any potential effects of batteries and accumulators on the environment and human health due to the potential presence of hazardous substances. For proper collection and treatment, contact your local Toshiba Global Commerce Solutions representative.

This notice is provided in accordance with Royal Decree 106/2008 of Spain: The retail price of batteries, accumulators and power cells includes the cost of the environmental management of their waste.

For California:

Perchlorate material – special handling may apply

Refer to <https://www.dtsc.ca.gov/hazardouswaste/perchlorate/>.

The foregoing notice is provided in accordance with *California Code of Regulations Title 22, Division 4.5, Chapter 33: Best Management Practices for Perchlorate Materials*. This product/part includes a lithium manganese dioxide battery which contains a perchlorate substance.

Flat panel displays

The fluorescent lamp in the liquid crystal display contains mercury. Dispose of it as required by local ordinances and regulations.

Monitors and workstations

Connecticut: Visit the website of the Department of Energy & Environmental Protection at <http://www.ct.gov/deep> for information about recycling covered electronic devices in the State of Connecticut, or telephone the Connecticut Department of Environmental Protection at
