SPECIFICATION

- ✓ 30 AWG cable diameter - 4.5mm
- ✓ Integral latch guard

DESCRIPTION

High Quality Screened UFTP Slimline Category 6A Patch Cords cables manufactured, tested to 500MHz. Slimline 30AWG LSOH cable ensures less clutter in patch fields with a cable diameter of 4.5mm, making this one of the highest Density 10G Patch cables available today. To maintain consistent performance, the Cat6a patch leads also feature a 'Blade' style moulded snagless strain relief boot preventing strain on the cable termination itself ensuring flawless operation during the patch leads service life. Suitable for all RJ45 Shielded Networks.
