Keep this user manual for future reference or product sharing carefully. Do the same with the original accessories for this product. In case of warranty, please contact the dealer or the store where you bought this product.

**Warranty 2 years**

## Features

- The LifenaXX LX-025 is a cordless vibration Muscle Massager device that relaxes sore stiff muscles, increases circulation and range of motion, and improves the overall health of the body's soft tissue.
- 4 Speed Levels with 1200, 1800, 2400, 2800rpm.
- 7,4V Battery with 2000mAh 3hour charging time
- 120 min. working time
- 4 different massager heads
- Automatic shutdown after 10 min.
- Low Battery indicator, red and green LED flashes

## Technical specifications

USB (indoor use only)	5V max. 0,8A
Battery	7,4V / 2000mAh

## Normal use

For adult use only.

- Charging indicator light: The red indicator light flashes slowly when charging, and the red indicator light goes out when it is full.
- Install 1 of the 4 heads according to your needs.
- Hold the power button for 3 seconds to switch the item on/off.
- press the button shortly to change the speed
- Use only on a dry clean surface of the body over clothing by lightly pressing and moving across the body for approximately 60 seconds per region.
- Use the LifenaXX LX-025 only on the body's soft tissue as desired without producing pain or discomfort. Do not use on head or any hard or bony area of the body.
- Use only the applicators that provide the best desired effect.
- Bruising can occur regardless of control setting or pressure applied. Check treated areas frequently and immediately stop at first sign of pain or discomfort.
- Keep fingers, hair or any other body part away from the shaft and backside of the applicator as pinching may occur.

1	Massage head	4	Power/ speed Button
2	Work/ Charging indicator	5	Speed indication
3	Type-C Charging port		

## Heads from left to right

<b>Forked head</b>	suitable for the muscles and soft tissue on both sides of the spine
<b>Flat head</b>	suitable for all body parts (muscles and soft tissue)
<b>Global head</b>	suitable for muscle groups and soft tissue
<b>Bullet head</b>	suitable for musculature and soft tissue near body joints

## Install the heads

Replace the massage head as required. To do this, remove the original head (left picture) and insert another one in the holder (right picture)

## Safety Instructions

- Only recharge with supplier or compatible USB cable.
- This device is not intended for use by children or persons with limited mental capacity or lacking experience and/or lacking expertise.
- This device is not intended for commercial use.
- Any other use or modification of the device is considered improper and involves significant risks. The manufacturer assumes no liability for damages due to improper use.
- Never leave the LifenaXX LX-025 operating or charging unattended.

PLEASE DO NOT USE THE LIFENAXX LX-025 IN THE FOLLOWING

## CIRCUMSTANCES WITHOUT PRIOR CONSENT OF YOUR DOCTOR:

pregnancy, diabetes with complications such as neuropathy or retinal damage, wearing pacemakers, recent surgery, epilepsy or migraine, herniated disc, spondylolisthesis, spondylolysis or spondylosis, recent joint replacement surgery or spirals, metal pins or plates, or if you have any concerns about your physical health. These contraindications do not mean that you cannot use vibration or exercise equipment. However, we recommend that you consult a doctor first. The effects of vibration applications on certain medical conditions are currently being studied. This will probably lead to a reduction in the list of contraindications above. Practice has shown that integrating vibration applications into a treatment plan is advisable in a number of cases. This must be done on the recommendation and with the assistance of a doctor, specialist or physiotherapist.

## WARNINGS & CAUTION:

For adult use only, apply to a dry, clean surface over clothing by light pressure and movement over the body. The application time should not exceed 60 seconds per body region. Use LX-025 only on soft body tissues and muscles, if you feel pain or discomfort stop the procedure. Use only the supplied applicators. Pressure points can occur regardless of the setting, control or applied pressure. Check the treated areas regularly and stop immediately at the first sign of pain or discomfort. Keep fingers, hair or other body parts away from the spindle and the back of the applicator as bruising may occur. Do not use the device in the presence of a flammable anesthetic mixture with air, oxygen or nitrous oxide, or near flammable substances, vapors or gases. Do not operate the device near heating openings or in direct sunlight. Keep the device dry and switch it off when not in use. Do not immerse the device in water. Frequent high-speed and high-pressure stimulation on the same spot may cause abrasion. If you experience pain or discomfort, please stop using the device immediately. Make sure that the equipment is not on the working state when charging!

**Hints for Environment Protection:** Packages materials are raw materials and can be recycled. Do not disposal old devices or batteries into the domestic waste. **Cleaning:** Protect the device from contamination and pollution (use a clean drapery). Avoid using rough, coarse-grained materials or solvents/aggressive cleaner. Wipe the cleaned device accurately. **Distributor:** Technaxx Deutschland GmbH & Co.KG, Kruppstr. 105, 60388 Frankfurt a.M., Germany
