

2850

Banknote counter

Rapidly count your banknotes

Easily count large amount of banknotes. The Safescan 2850 rapidly counts sorted banknotes for all currencies while simultaneously verifying them on up to three security features. Perfect for when you need to count large stacks of sorted banknotes quickly. Thanks to its smart design, high definition touch display and intelligent interface in your local language your banknote counting will be easier than ever before.

- Banknote counter that counts sorted banknotes for all currencies
- Counts up to 1.500 banknotes per minute
- Rapidly counts banknotes thanks to its large hopper capacity and continuous feeding
- Verifies banknotes on up to three security features: UV, MG and Size
- Stops counting and presents an audio and visual alarm when a suspected banknote is detected
- Displays a detailed message when a suspected banknote is detected
- Automatically starts and stops counting the inserted stack of banknotes
- Adds up the number of counted notes across different runs with the add function
- Calculates the value per denomination with the calculator function
- Creates equal stacks of banknotes with the batch function
- Easily operated thanks to 3.5 inch high definition touch screen with quick menu
- Helps to ensure a long life cycle by displaying maintenance notifications when the device needs to be cleaned

Displays a detailed message when a suspected banknote is detected

High definition touch display with multi-lingual interface and quick menu

Internal parts and sensors can easily be cleaned by opening the top panel
