

Boost Connectivity, Power, and Productivity with the ProDockStation

Resolve Connectivity Headaches

Ideal for evolving, mixed computer environments, and hotdesking, the ProDockStation connects to DisplayPort and HDMI Displays, any USB-C or USB-A laptop, and supports Windows, Mac and Chrome operating systems.

The Smart Technology Investment

Deploying the right Docking Station is an investment in your business's future. The wide compatibility of the ProDockStation ensures connectivity between old, new, and future devices. Providing a dependable, future proof solution to increase return on investment.

Increase User Satisfaction and Productivity

Ideal for users working across multiple applications, documents, or websites, the ProDockStation enables users enjoy crisp 4K resolution across up to 3 external monitors.

Extend the capabilities of slim, modern laptops – the ProDockStation provides 5 USB ports (USB-A and USB-C), 2 x HDMI, 2x DisplayPort, Gigabit Ethernet and 3.5mm Audio. So, all the essentials – phone, keyboard, mouse, headset and the rest – can all be connected simultaneously.

Looking to Add a Fourth Monitor?

Pair your Hypertec Dock with a [Lite by Hypertec Laptop Stand](#) to use the connected device as an additional display – the cost effective way to integrate an additional screen into set-ups without buying a new monitor.

To learn more about the ProDockStation, or for more information about our full range of Docking Stations, contact your Hypertec Account Manager today.
