With a large 45" display, 21:9 aspect ratio and a dramatic curved OLED screen, you'll feel like you're actually in the game. Experience next-level gaming performance with LG UltraGear OLED.

This UltraGear OLED monitor's dramatic and steep 800R curve draws you in with game play by extending the periphery to feel like you're surround by the action.

Officially validated by NVIDIA® as G-SYNC® Compatible. That translates to faster, smoother gaming that's been tested to reduce screen tearing and stutter. Never miss a frame of the action as you clinch your victories.

AMD FreeSync™ Premium Pro equips serious gamers with a fluid, virtually tear-free gaming experience. With at least 120Hz refresh rate at minimum FHD resolution and low latency gameplay, you'll never miss a frame of the action as you play at peak performance.
