SpacePole Back-to-back Screen Mount, VESA 75/100

Ergonomic Solutions SpacePole POS SpacePole Back-to-back Screen Mount, VESA 75/100:

The top mount is used when the solution requires space for the attachment of other peripherals such as a swing arm for a printer or payment terminal to the SpacePole – in addition to the screen. This type of mounting solution is particularly useful where the actual space on the counter itself is limited. Raising the technology above the counter frees up any space that is available.
