2-Port USB-C DisplayPort Hybrid Cable KVM Switch
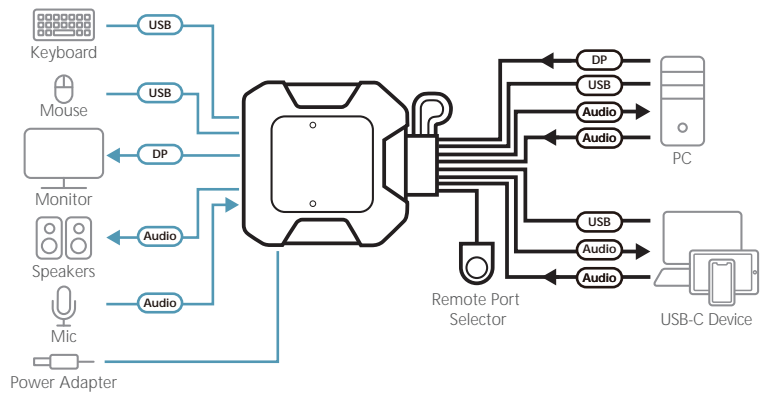

CS52DP

The CS52DP 2-Port USB-C DisplayPort Hybrid Cable KVM Switch is a control unit that allows access to a USB-C device and a DisplayPort computer. With the CS52DP, you can quickly and effortlessly switch between two computers by using a convenient remote port selector pushbutton.

The compact CS52DP also brings in vivid 4K viewing quality to lift up work performance. Further advanced features of the CS52DP include the bus-powered mode and no need to install software or configure device. This plug and play switch is ideal for people who need quick control to multitask between a computer and a USB-C device on a desktop in any environment. Moreover, the compact design allows for an efficient and tidy installation, providing an ideal space-saving solution to keep your desk well-organized.
