

DC2 PRO

Perfect match for your high-end cooler

DC2 Pro is the thermal grease of choice for high-end chips that generates massive heat. Its extremely high thermal conductivity makes for an exceptional heat transfer.

Highlights

- Liquid metal for a thermal conductivity beyond all standards
- Extremely high thermal conductivity of 80W/mK
- Wide temperature range of 20°C to 200°C
- Enough content for more than 10 applications
- Cotton swabs in the scope of delivery make for a comfortable application
- Electrically conductive, handle with care
- Only use with nickel plated coolers, incompatible with HDT and aluminum
