

# FIREBOX T45

5G and Wi-Fi 6 enabled models available

Up to 3.94 Gbps firewall throughput, 5 x 1Gb ports, 30 Branch Office VPNs

## ENTERPRISE-GRADE SECURITY FOR BRANCH OFFICES AND RETAIL ENVIRONMENTS

WatchGuard Firebox T45 tabletop appliances bring enterprise-level network security to small office/branch office and retail environments. These appliances are small-footprint, cost-effective security powerhouses that deliver all the features present in WatchGuard's higher-end UTM appliances, including all security capabilities, such as AI-powered anti-malware, threat correlation, and DNS-filtering.

*"We are deeply impressed by the outstanding performance of the T45-PoE/T45-W-PoE. This device, having one PoE+ port for powering a phone or access point, is an excellent choice for connecting home offices or smaller branch offices."*

*~ Bernd Och, CEO, BOC IT-Security GmbH*

### BIG SECURITY IN A SMALL APPLIANCE

With the Total Security Suite, WatchGuard's Firebox includes a complete and industry-best set of threat management solutions, including gateway antivirus, content and URL filtering, antispam, intrusion prevention, application control, Cloud sandboxing, and endpoint protections, all in an easy-to-manage package.

### QUICK AND SIMPLE DEPLOYMENT

Zero-touch deployment makes it possible to eliminate much of the labor involved in setting up a Firebox to connect to your network - all without having to leave your office. A robust, Cloud-based deployment and configuration tool comes standard with WatchGuard Firebox appliances. Local staff connects the device to power and the Internet, and the appliance connects to the Cloud for all its configuration settings.

Integrated support for PoE+ means you can avoid running separate power cables to peripheral devices like security cameras, VoIP phones, or wireless access points.

### UNIFIED SECURITY PLATFORM® ARCHITECTURE

WatchGuard's Unified Security Platform framework is built from the ground up to enable a single console solution for provisioning, deploying, managing, and monitoring an integrated portfolio of advanced cybersecurity solutions and services. This comprehensive portfolio of endpoint, multi-factor authentication, Wi-Fi, and network security solutions (including Firebox firewall appliances) helps stop the attempted discovery and exploitation of vulnerable systems, phishing, ransomware, intrusions, and advanced malware across all users, environments, and devices. Our Unified Security Platform architecture replaces the old patchwork security approach and makes it possible to extend security capabilities to every computing environment where your business operates.

### NETWORK OPTIMIZATION WITH SD WAN

Firebox T45 models make network optimization easy. With integrated SD-WAN and optional 5G technology, you can ensure failover to the cellular network, minimize disruptive connectivity, and establish secure and reliable connections for small offices.

### FEATURES & BENEFITS

- 5 Gigabit Ethernet ports support high-speed LAN backbone infrastructures & gigabit WAN connections.
- Integrated PoE+ port for powering peripheral devices.
- Wi-Fi capable Firebox T45-W-PoE supports the 802.11ax Wi-Fi 6 standard, ensuring fast speeds for your users. Dual concurrent 5 GHz and 2.4 GHz radios.
- All logging and reporting functions included with purchase, with over 100 dashboards and reports including PCI and HIPAA.
- Integrated 5G cellular and dual-band Wi-Fi 6 capable Firebox T45-CW minimizes disruptions to network connectivity.

## TECHNICAL SPECIFICATIONS

### THROUGHPUT <sup>1</sup>

|   |           |
|---|-----------|
| UTM (full scan) <sup>2</sup>                        | 557 Mbps  |
| Firewall (IMIX)                                     | 1.44 Gbps |
| VPN (IMIX)  | 460 Mbps  |
| HTTPS Content Inspection (IPS enabled) <sup>3</sup> | 301 Mbps  |
| Antivirus   | 874 Mbps  |
| IPS (full scan)                                     | 716 Mbps  |
| Firewall (UDP 1518)                                 | 3.94 Gbps |
| VPN (UDP 1518)                                      | 1.58 Gbps |

### CAPACITY

|                                |                |
|--------------------------------|----------------|
| Interfaces 10/100/1000         | 5              |
| I/O interfaces                 | 1 Serial/2 USB |
| Concurrent connections         | 3,850,000      |
| Concurrent connections (Proxy) | 285,000        |
| New connections per second     | 26,500         |
| VLANs                          | 50             |
| WSM licenses (included)        | 0              |
| EDR Core licenses              | 20             |

### VPN TUNNELS

|                   |    |
|-------------------|----|
| Branch Office VPN | 30 |
| Mobile VPN        | 30 |

### SECURITY FEATURES

|                     |  |
|---------------------|--|
| Firewall            | Stateful packet inspection, TLS decryption, proxy firewall             |
| Application proxies | HTTP, HTTPS, FTP, DNS, TCP/UDP, POP3S, SMTPS, IMAPS and Explicit Proxy |
| Threat protection   | DoS attacks, fragmented & malformed packets, blended threats           |
| Filtering options   | Browser Safe Search, Google for Business                               |

### VPN

|                   |   |
|-------------------|---|
| Site to Site VPN  | IKEv2, IPsec, Policy and Route Based Tunnels, TLS hub and spoke |
| Remote Access VPN | IKEv2, IPsec, L2TP, TLS   |

### VISIBILITY

|                           |  |
|---------------------------|--|
| Logging and notifications | WatchGuard Cloud & Dimension, Syslog, SNMP v2/v3   |
| Reporting                 | WatchGuard Cloud includes over 100 pre-defined reports, executive summary and visibility tools |

### CERTIFICATIONS

|                             |                           |
|-----------------------------|---------------------------|
| Security                    | Pending: CC, FIPS 140-2   |
| Safety                      | NRTL/CB                   |
| Network                     | IPv6 Ready Gold (routing) |
| Hazardous substance control | WEEE, RoHS, REACH         |

### NETWORKING

|                       |   |
|-----------------------|---|
| Cellular              | Integrated 5G - see Hardware Guide for specifications                       |
| SD-WAN                | Multi-WAN failover, dynamic path selection, jitter/loss/latency measurement |
| Dynamic Routing       | RIP, OSPF, BGP  |
| High Availability     | Active/passive, active/active   |
| QoS                   | 802.1Q, DSCP, IP Precedence   |
| Traffic Management    | By policy or application  |
| IP address assignment | Static, DHCP (server, client, relay), PPPoE, DynDNS                         |
| NAT                   | Static, dynamic, 1:1, IPsec traversal, policy-based                         |
| Link aggregation      | 802.3ad dynamic, static, active/backup                                      |

<sup>1</sup> Throughput rates are determined using multiple flows through multiple ports and will vary depending on environment and configuration. Max firewall throughput tested via direct connection using 1518 byte UDP frame based on RFC 2544 methodology. All testing performed on Firewall version 12.6.

<sup>2</sup> UTM throughput is measured using HTTP traffic with AV, IPS, and Application Control enabled, and does not account for all security services available on the appliance.

<sup>3</sup> HTTPS throughput is measured per NetSecOPEN methodology - 256k response with TLS1.2 AES256 + SHA-256.

## STRONG SECURITY AT EVERY LAYER

Uniquely architected to be the industry's smartest, fastest, and most effective network security products, WatchGuard solutions deliver in-depth defenses against advanced malware, ransomware, botnets, trojans, viruses, drive-by downloads, phishing and much more. Total and Basic Security Suite packages are available on all Firebox solutions.
