LOGI DOCK FOCUS ROOM KIT

Logi Dock Focus Room Kit equips phone booths and focus rooms for productive hybrid work. You'll get:

- Logi Dock: All-in-one dock with meeting controls and speakerphone
- Brio: Premium 4K HDR webcam
- Cable management for secure installation

PLUG-AND-PLAY VIDEO MEETINGS FOR FOCUS ROOMS

Now it's easy to outfit small spaces for video conferencing. Logi Dock Focus Room Kit is a one-cable, plug-and-play video conferencing solution for phone booths and focus rooms. A single cable connects and charges employee laptops¹.

Logi Dock simplifies video meetings, and is certified for *Microsoft Teams*, *Zoom*, and *Google Meet*. One-touch meeting controls and calendar integration help minimize distractions. Six beamforming mics and premium speakers ensure call clarity. The Brio webcam helps users look natural, even in low light. Finally, the bracket and cable tidy kit ensure a clean, secure installation for IT.

FEATURES & BENEFITS

ONE CABLE, GREAT MEETINGS

One cable is all you need. Connect the included *USB-C* cable to your laptop for an instant meeting with professional-quality audio and video. At the same time, the cable charges laptops up to 100 watts and provides a reliable network connection.

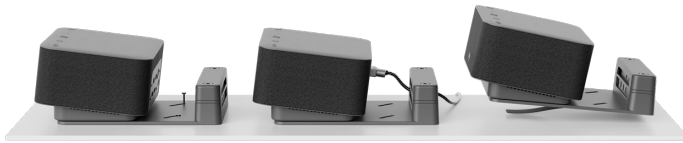

WORKS WITH MAJOR VIDEO CONFERENCING PLATFORMS

With products that are certified for Microsoft Teams, Zoom, and Google Meet, the kit offers additional features for these platforms, including one touch to join². It also works with major video conferencing platforms that run on the laptop. This means IT doesn't need to restrict focus rooms to one video conferencing platform. Employees can pop into a focus room, plug a laptop in, and instantly join a meeting with better audio and video.

FEATURES & BENEFITS

SIMPLE, HIGH-QUALITY MEETING EXPERIENCE

EASY DEPLOYMENT

Cable Management

An included mounting bracket and cable tidy kit attach Logi Dock to the table in a clean and secure manner

Flexible Installation

Conveniently deploy the kit at scale with multiple table mounting options

PROFESSIONAL AUDIO

Noise-Canceling Speakerphone

Six beamforming microphones help capture your voice clearly while advanced algorithms reduce unwanted background noise

Crystal-Clear Sound

Expertly-tuned speakers deliver crystal-clear sound for video meetings

ALL-IN-ONE DOCKING STATION

One-Touch Meeting Controls

Control audio and video, and join any meeting with a single touch²

Connect Everything

Attach up to five USB peripherals via USB-A and USB-C, and up to two monitors via HDMI and DisplayPort. Connect to wired networks via the included USB-C-to-Ethernet adapter

Bluetooth® Connectivity

Pair to a smartphone or tablet via Bluetooth to stream audio

4K VIDEO WITH RIGHTLIGHT

Ultra-HD Video

Enable immersive face-to-face conversations with 5x HD zoom in clear 4K resolution

Look Natural in Any Light

Logitech RightLight and high dynamic range (HDR) technology capture natural-looking skin tones, even in dim or backlit conditions

Adjustable Field of View

Choose from three diagonal field of view presets — 65°, 78° or 90° to perfectly frame your video
