Tru-Form Media 3150 Wireless Ergo Mini Trackball Keyboard

■ 2.4 GHz Radio Frequency Wireless Technology with ON / OFF Switch

This keyboard and trackball combo work at any angle with a range of up to 30 ft. with no wires to get tangled. The On/Off switch helps conserve battery power and the low battery indicator helps you know when it is time to change batteries.

■ Built-In Trackball, Scroll Wheel, & Mouse Buttons

This keyboard features an integrated trackball, scroll wheel, and left and right mouse buttons to give you full cursor control and eliminate the need of a mouse. The optical trackball offers 1000 DPI resolution, providing superior accuracy and smooth motion with minimal hand movement.

■ Removable Trackball

The built-in trackball not only makes for enhanced web browsing and precise navigation, but if necessary, it can also be removed by pushing the trackball outward from the back of the keyboard for easy cleaning and occasional maintenance.

■ Integrated Palm Rest

Designed to keep your hands in the natural resting position, this not only relieves joint pain and improves posture, but has also been shown to relieve back pain and spinal discomfort.

■ Keyboard Split / Ergonomic Design

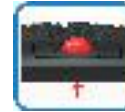

The design of this keyboard with split key zones and gently sloped shape encourages natural positioning of your hands, wrists, and forearm for maximum comfort and for long use.
