		Inch
Display	Resolution	3,840 × 2,160 (UHD)
	Solution	Pro:Centric (Smart, Cloud, Direct, V), Quick Menu

Pro:Centric Cloud

Pro:Centric Cloud improves the usability of enterprise's CMS solution and cloudification of system, reinforcing the service of 3rd party solution. It also offers various design templates, improving data collection and analytics platform with an eye-catching dashboard.

Pro:Centric Direct

The hotel content management solution Pro:Centric Direct offers easy and simple editing tools, making it easy to perform service and IP network-based remote management with a single click. The Pro:Centric Direct solution enables users to edit their interface easily by providing customized interface and efficiently manages all TVs in the room. The latest PCD version provides IoT-based in-room control. These IoT will be your starting point to prepare for the hotel rooms of next generation through artificial intelligence.

* Some features may not be supported based on PCD versions.

Slim Bezel That Makes TV a Sophisticated Objet

UR762H series with a slim bezel is designed to blend into any interior and delivers an immersive viewing experience without any interruption.

SoftAP

Software-enabled Access Point (SoftAP) is a "virtual" Wi-Fi feature that uses TV as a wireless hotspot, enabling guests to connect their own devices to the SoftAP. It supports Bridge Mode, allowing administrators to manage in-room SoftAP information such as signal level, SoftAP passwords, etc.

- * SoftAP should be set in the installation menu after the TV is turned on.
- * Screen Share may not be operated at the same time.

More Innovative LG webOS 5.0

Explore LG Smart TV features, and discover TVs that deliver innovative technology, remarkable clarity, and true-to-life colors. Mood Display & Gallery Mode enable you to utilize the TV as a customized clock and an artwork which perfectly harmonizes with your space and life.

Welcome Video / Screen

With the capability to display several images, Commercial Lite TVs allow for a greater variation of greeting messages in hotel rooms which make customers feel more welcome and cared for.

Hotel Mode (Public Display Mode)

From channel selection to volume level, you can control the TV settings in business areas. Hotel Mode also enables you to restore default settings, as required, on the TVs.

USB Cloning

USB data cloning makes managing multiple displays more efficient for optimal operation. Instead of setting up each display one by one, data can be copied to a USB for one display and can be sent to the other displays through a USB plug-in.

Bluetooth Sound Sync

Bluetooth Sound Sync enables users to listen to music on a mobile device through TV speakers via Bluetooth connection.

* Support devices for Bluetooth Sound Sync: Android (above v4.4 KitKat) / IOS based mobile device

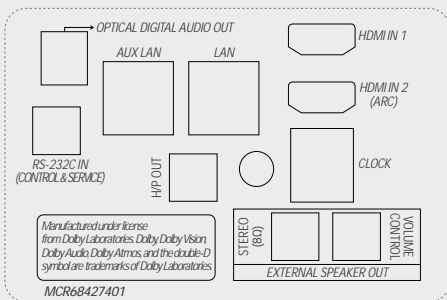

* All images are for illustrative purposes only
