EAN-13: 0766623440363 | UPC: 766623440363

Laptop bag - 14.1 inch - carry sustainably with high-quality polyester made from recycled PET bottles

The Helsinki Notebook Bag was designed with the environment in mind. By using the recycled materials of plastic bottles, they were kept out of our waterways and landfills. That keeps our ecological footprint small for a climate-friendly and resource-efficient production. You'll travel in style without the emotional baggage.

Lots of space, well-protected

The water-resistant, durable exterior offers great protection for your device against weather, spills, bumps and scratches, so you can commute with peace of mind. Quality zippers provide extra durability that will last for many years. The main compartment is divided into a notebook sleeve and a large pocket with plenty of space for files, headphones and more. Two additional zippered front pockets with pen holders store even more items such as chargers, cables or powerbanks. They also have the right size to keep business cards safe and crease-free.

Carrying Options - handles, shoulder strap and trolley strap
