

## BT7823

### INTERNAL POLE JOINER

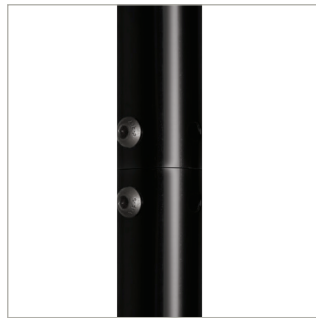

The BT7823 is an internal joining kit for Ø50mm poles which is designed to extend the drop of System 2 installations. The joiner is made from a single piece of 4mm thick heavy duty steel, which easily bolts to the inside of the poles to create a rigid, seamless join whilst still allowing cables to pass through unimpeded.

#### FEATURES

- Allows a rigid join of 2x Ø50mm poles
- Heavy duty steel supports substantial loads with minimal movement
- Hidden from view once installed for a seamless pole join
- Allows cables to pass through the poles and joiner
- One-piece design for a quick install
- Poles sold separately

One-piece design for a quick install

Creates a seamless pole join

CREATES A SEAMLESS JOIN BETWEEN POLES

Zinc

## BT7824

### EXTERNAL POLE JOINER

The BT7824 is an external joining kit for Ø50mm poles which is designed to extend the drop of System 2 installations. Made from a single piece of 4mm thick heavy duty steel, the joiner easily bolts to the outside of the poles to create a rigid join. The open tube design allows cables to pass through unimpeded and also provides a cable access point at the join location.

#### FEATURES

- Allows a rigid join of 2x Ø50mm poles
- Heavy duty steel supports substantial loads with minimal movement
- Includes grub screws which allow micro-adjustment of pole angle
- Allows cables to pass through the poles and joiner
- Provides a cable access point at the pole join
- Supplied with safety bolts for secure installation
- Poles sold separately

Grub screws which allow micro-adjustment of pole angle

Supplied with optional short safety bolts to allow cables to pass through

GRUB SCREWS ALLOW MICRO-ADJUSTMENT OF POLE ANGLE
