

## THE NEW FUSION

Everything you love about Fusion, enhanced with even more installer-friendly features.

# FUSION UPGRADE

Chief's engineers returned to Fusion mounts to see what more could be done to improve the industry favorite solution. They kept all the features installers love, like ControlZone™ Adjustment, Centerless™ Shift, Centris® Tilt and ClickConnect™ Latching. Then they added new features to help make projects run even better.

XTMU	XTM1U

*\*Compatible with dual stud mounting only. Order the FCA1S to accommodate single stud mounting.*

*\*\*FHB5038 VESA® adapter required for compatibility with 800-1000 mm vertical patterns.*

## THE LATEST INNOVATIONS INCLUDE

### 1 SUPER STABILITY

Included set screws can be used to keep the mount rigid while attaching the uprights to the wall and while hanging the display. Engaging the set screws also ensures secure, precise positioning throughout the life of the installation.

### 2 NESTING SPACERS

Exclusive nesting spacers can be stacked to achieve any depth, providing a simple, universal hardware solution for mounting displays.

### 3 FASTER INSTALLATION

Integrated teardrop design speeds up wall plate installation by allowing pre-installation of the bolts to the wall. The mount can then be hung and the bolts tightened down to secure the install.

### 4 QUICK-STORE CORDS

New, magnetized ClickConnect™ makes it easy to store and access pull cords. Once the display is clicked into place simply snap the magnet anywhere onto the interface to hide the cords from view.

### 5 IMPROVED CABLE MANAGEMENT

Redesigned end caps allow cables to be routed behind the poles – no need to remove.

### BETTER PACKAGING

We didn't stop with the mount. We wanted to improve the overall experience, so we made the box easier to open with less waste to throw away. Along with that, we implemented an interface hardware box that can be hung from the mount so you don't lose any pieces if there is a long gap between hanging the mount and hanging the display.

### CONSOLIDATED ACCESSORIES

Fusion's refresh comes with new accessories that work across the wall, freestanding and ceiling Fusion solutions. Fully customize installations, save inventory space and simplify your order with FCA8XX series accessories. See back page for cross reference information.

	Old	New	Compatibility
Lower Shelves	FCA500	FCA800 Above/Below Component Shelf	Fusion Fixed & Tilt Wall, Freestanding & Ceiling Mounts
