

USB TYPE C

USB3.0 Type-A to Type-C Leaded Adapter

USB3.1 (also called Gen.2) brings many improvements to the previous standard USB3.0 (Gen.1). The most noticeable is the new Type-C connector which is much smaller and reversible. The Type-C connector is backwards compatible and can also be used with USB3.0 PCs and devices.

Specification

- USB3.1 Type-A (f) to Type-C (m)
- Reversible connector (Type-C)
- Data Transfer Rate: 5Gbps
- Charging Output: 3A
- Length: 15, 50cm or 1m

Reversible Connector

The new USB Type-C connector is smaller than most of the previous USB connectors. (Micro B is the exception.) It is also symmetrical; this allows you to plug the connector in either way up.

Type A to Type C

This cable features both a Type-A socket and a Type-C connector making it the perfect solution for converting a new Type-C socket into a Type-A socket.

CODE	DESCRIPTION
USB3C-951	15cm USB3.1 (Gen.1) - Type C (m) to Type A (f) leaded adapter
USB3C-951-50CM	50cm USB3.1 (Gen.1) - Type C (m) to Type A (f) leaded adapter
USB3C-951-100CM	1m USB3.1 (Gen.1) - Type C (m) to Type A (f) leaded adapter
