BT8380-JPK

SYSTEM X™ JOINING PLATE KIT
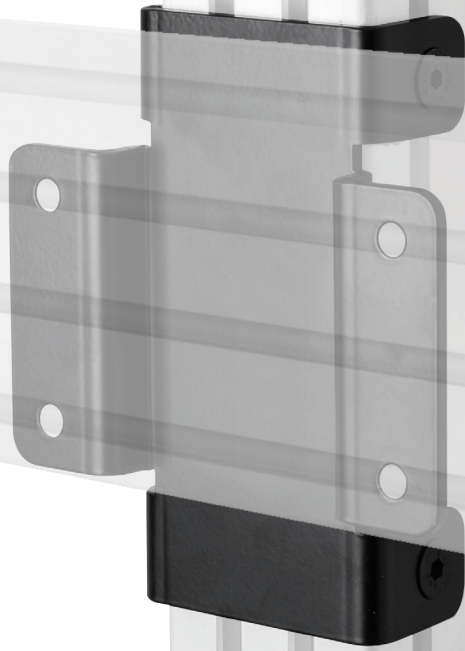

Designed to fit BT8390 mounting rails to BT8380 support columns, the BT8380-JPK is a joining plate which is needed to assemble System X freestanding, mobile or bolt-down video wall solutions. The plate is fitted quickly and easily using the provided sliding nuts and countersunk screws, which allow the mounted rail to be positioned anywhere along the length of the column. A row height spacer (BT8390-SP) is also available (separately) to help position multiple rails when installing video walls, without needing to measure out the position of each BT8380-JPK.

SPECIFICATION

Steel thickness	4mm
Brackets supplied per pack	1
Colour	Black

FEATURES

- Used for a variety of different fixed, freestanding or mobile video wall installations
- Also ideal for single and twin screen System X installations
- Included sliding nuts allow rails and columns to be positioned as required to suit the application
- A screen row height spacer (BT8390-SP available separately) allows the BT8380-JPK and mounted rails to be positioned at the required height without needing to measure out the correct distance*
- All mounting hardware included

*Please note the BT8390-SP has preset measurements for the most common video wall screen sizes: 46", 47", 55" and 60" in a landscape orientation.

Included sliding nuts allow rails and columns to be positioned as required

Used for a variety of fixed, freestanding or mobile video wall installations
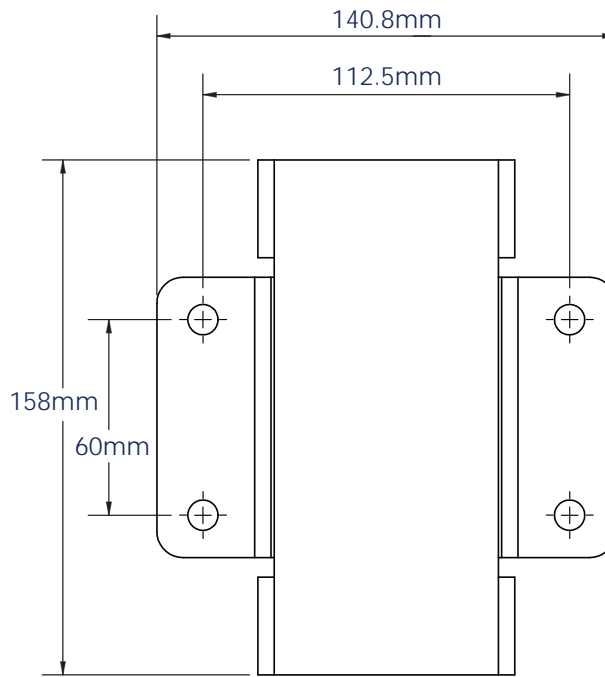

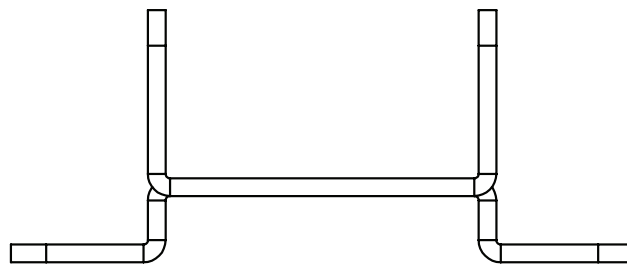

Ideal for single and twin screen System X installations

Multiple rows can be spaced apart using BT8390-SP Row Spacing Kit
