

CONVENIENT REMOTE POWER MANAGEMENT FOR UPS

The remote cloud card allowing users to perform remote power monitoring and management

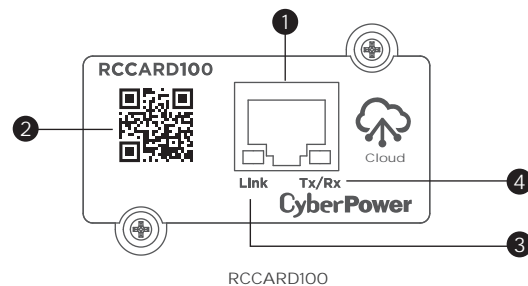

Ideal for UPS systems, the Remote Cloud Card Series provides convenient remote power management solution. It is an add-on component which can be inserted into a UPS expansion slot, allowing users to easily monitor and control UPS status. The cards are plug-and-play design, simple to install into a compatible UPS. Working with PowerPanel Cloud and PowerPanel App, the remote cloud card enables users to monitor and manage a UPS system anytime and anywhere, through a secure web portal or mobile app.

SERIES FEATURES

- UPS Management Through Cloud
- QR Code for Quick Setup
- Plug-and-play Installation
- User-upgradeable Firmware
- RoHS Compliant

PRODUCT CALLOUTS

1. Ethernet Port
2. QR Code
3. Link Indicator
4. Tx/Rx Indicator

TECHNICAL SPECIFICATIONS

Model Name	RCCARD100
Management & Communications	
LED Indicators	Tx/Rx, Link
Connectivity Port	RJ45
Data Link Protocol	Ethernet 100Base-TX, Ethernet 10Base-T
Support Plug-and-play Installation	Yes
User-upgradeable Firmware	Yes
Remote Management	PowerPanel App (Free 3-year Service), PowerPanel Cloud (Free 3-year Service)
Physical	
Dimensions (WxHxD) (mm.)	54 x 36.1 x 76.5
Weight (g.)	31
Certifications	
Certifications*	CE, FCC Class B
RoHS	Yes
