**Product name :** 100m USB 2.0 Cat.6 Extender

100m USB 2.0 Cat.6 Extender

[Lindy 100m USB 2.0 Cat.6 Extender:](#)

The Lindy 100m USB 2.0 Cat.6 Extender can be used to extend the distance between a USB peripheral device and host computer by up to 100m. It consists of a transmitter unit which connects to the computer and a receiver unit that connects to the device. Standard Cat.5e/6 network cable (not included) is then used to bridge the connection between the two units. For best performance and compatibility, we recommend the use of solid core patched cables.

For added convenience this USB 2.0 Extender is supplied with a power supply, which can be connected should additional power be required.

\*Please Note: this extender might not support USB devices that require high bandwidths such as Full HD webcams.
