Wired headset for gaming & multimedia

Comfort and sound quality – the ideal combination for intensive work and play

The CHERRY HC 2.2 headset is the ideal mix of comfort and sound quality for extra-long gaming sessions, video conferencing or multimedia applications.

The oval ear cushions fit snugly around your ears and block out ambient noise. The high-quality synthetic leather cover feels like a second skin, while a silicone air cushion relieves pressure on the top of your head. Since no two ears are alike, the pads can be rotated and individually adjusted. They can even be replaced if they get dirty - replacement pads are available separately.

The integrated USB sound card, together with the powerful 50 mm drivers, delivers a wide sound spectrum with emphasized deep bass and fine treble with clear sound reproduction. Virtual 7.1 surround sound enables perfect orientation during gaming. Music and voice chats are also played back impressively. The tactile volume controls and microphone mute are located directly on the left side of the headphones for quick and easy access.

The sensitive microphone is attached to the headset via a 3.5 mm AUX connector and can be easily removed. The integrated LED on the microphone directly indicates if it has been muted. If required, the supplied microphone wind protector can be used to reduce breath sounds.

When using a Windows PC, optional free software is available that allows you to make adjustments to the sound

image, for example, even while the headphones are in use. You can adjust the sound, change the microphone volume or activate surround presets in the Audio Centre.

High-quality materials and minimalist design complete the full package. Red illuminated CHERRY logos add the finishing touch to the classy look and set a striking tone. The headset folds up to fit in any pocket - ideal for mobile work or frequent changes of location.

Decisive advantages

- Integrated USB sound card
- Impressive virtual 7.1 surround sound
- 50 mm drivers for a wide sound spectrum and crystal clear sound reproduction – ideal for simultaneous gaming and speech.
- Perfect fit thanks to the adjustable headband and silicone air cushions in the upper head area
- Replaceable ear cushions made of soft PU leather for a high level of comfort and complete sound immersion
- Easy access to tactile volume and mute controls directly on the headset
- Sensitive, detachable microphone (incl. wind protection) with LED indicator for mute status
- Red illuminating CHERRY logos
- Foldable for easy transport
- Recommended for PC gaming but also other applications such as online conferencing or listening to music
- Support software included

Warranty

We put a lot of dedication and hard work into the development of our products and we are proud of their quality. This is why, in addition to the statutory guarantee mentioned in the operating **instructions, we are granting an expanded manufacturer's** guarantee that is subject to the conditions stated below.

For the first two years after delivery, the statutory warranty applies. In the third year after delivery, CHERRY voluntarily grants an additional warranty according to the following conditions ("extended warranty"). In the event of a defect, please contact the seller of your CHERRY product. Do not carry out any repairs on your own and do not open the product. There is no warranty if unauthorised changes to the product cause a defect.

Conditions for the extended warranty

In the case of a defect after the first 2 years after delivery of the CHERRY product, CHERRY grants its customers for the additional period of one year the right to assert claims for cure, i.e. demand that the defect is remedied or a thing free of defects is supplied.

The extended warranty is to be asserted against the seller of the CHERRY product upon presentation of the original invoice, proof of purchase or a comparable proof of the time of purchase.

CHERRY, and the seller of the CHERRY product, where applicable, shall remedy the defect in the event the customer has justified claims for cure under the terms of the extended warranty.

Excluded from the extended warranty are damages caused by improper use, in particular by the effects of chemical substances, other damages caused by external influences, as well as normal wear and tear and optical changes, in particular discoloration or abrasion of shiny areas. Also excluded from the extended warranty are accessories and other parts which are not an integral part of the purchased item.

Errors, technical changes and delivery possibilities excepted. Technical information refers only to the specifications of the products. Features may differ from the information provided.
