High-Definition 4K Display

The Ultra Mini DisplayPort to HDMI Active Cable is built to support a maximum resolution of 4K@60Hz. The cable is HDMI compatible with support for true Ultra-high definition 4K@60Hz. It can support a bandwidth of up to 18Gbps making it ideal for high-resolution gaming or video editing applications.

Plug and Play - Active Chipset

The HDMI cable includes a built-in chipset to allow support for ACTIVE conversion. The ACTIVE cable is compatible with both Mini DisplayPort and DisplayPort outputs that are not capable of outputting DP++, such as the AMD Eyefinity video card, however, it also will support DP++ outputs. The cable is also Plug and Play, allowing for immediate use without driver or software installation.

Ultra-Construction

The ALOGIC Ultra range is crafted from superior materials and specially designed to guarantee a longer lifespan. The cable core is strengthened with synthetic fibre and reinforced with thermoplastic (TPE) jacket to provide increased protection against all types of wear and tear. The cable head is also constructed from thermoplastic (TPE) for maximum strain relief and finished with a metal alloy housing for added durability.

User Interface

Input Mini DisplayPort (Male) x 1
Output HDMI (Male) x 1

Resolution

Up to 3840 x 2160 (Ultra HD 4K@60Hz)

Package Includes

Mini DisplayPort to DisplayPort Ultra 8K Cable x 1

Physical Characteristics

Colour Space Grey
Cable Length 2m
Materials Metal alloy housing + TPE SR

Compatibility

Compatibility with non-DP++ outputs such as AMD Eyefinity video cards

Warranty

2 Years
