

DisplayPort 1.2 & Locking DisplayPort Cables

DisplayPort is a 20 pin connector similar to HDMI but designed to replace DVI and the standard as a preferred (or standard) way to define a new royalty free audio/video connection.

DisplayPort is very simple to use and makes connecting your PC to your DisplayPort enabled display very easy. Our DisplayPort cables are black with gold plated locking connectors to reduce disconnection due to cable strain.

- Features**
- 0.5 and 1m Lengths: DisplayPort Version 1.2
 - 1, 2 and 5m Lengths: DisplayPort Version 1.1
 - Locking DisplayPort connectors
 - 30 AWG Tinned copper cores
