

i-tec USB-C Metal Nano Dock HDMI/VGA with LAN + Power Delivery 100 W

i-tec USB-C Metal Nano Dock HDMI/VGA with LAN + Power Delivery 100 W

PRODUCT DESCRIPTION

Small metal USB-C docking station capable of easily connecting an external monitor or projector via an HDMI or VGA port. Simply connect your laptop or tablet (no need to install drivers) and reap the benefits of quick USB data transfer, connection to the internet via a LAN port, and the ability to connect your headset. And of course, the docking station can also power your laptop with up to 100 W, meaning you will be able to charge all laptops and tablets that support charging via USB-C (USB-C Power Delivery).

Brushed aluminium body grants the docking station sufficient durability and resilience even during frequent travel. The integrated USB-C cable is sufficiently long for comfortable connection even if the USB-C port is located in the upper portion of the screen frame (typical for hybrid laptops/tablets).

The docking station is also fully compatible with tablets and laptops featuring a Thunderbolt 3 port.

- Easily plug in an external monitor with resolution of up to 4K/60 Hz
- Power delivery: up to 100 W
- one HDMI and one VGA port available (both can be used at the same time; in that case, both monitors will display the same image)
- 3x USB 3.0 and 1x USB-C port will allow you to easily connect your USB devices and peripherals.
- SD and microSD slot will come in handy especially for owners of smartphones and digital cameras
- Gigabit Ethernet RJ-45 provides reliable, robust and high-speed Internet connection supporting 10/100/1000 Mbps speeds
- Combined jack for audio and microphone (headset) on the front panel
- Supports Windows 10, macOS, Android, Chrome OS and Linux
