Nine Ways to Enhance Your Workspace

9 Different Ports For Total Connectivity

Many modern laptops are missing the ports professionals need to connect essential USB accessories and displays at their desk. With the nine-port MX2 on your desk, you can connect two pristine DisplayPort-enabled computer monitors for multi-screen activities. You can run all your standard IT peripherals, including keyboard, mouse, printer and phone. Play back audio over headphones while you work and connect to Ethernet when you need a reliable connection for activities such as video conferencing.

Power and Data for Modern Times

85W Speedy Charging and 5Gbps Data Transfer

With 85W Power Delivery pass-through capability, the MX2 can deliver your laptop a speedy charge while you work. It also features USB 3.2 Gen 1 5Gbps data transfer speed capabilities, so you can transfer movies, music and other multimedia files in as little as seconds. That means less time waiting on files and more time using them.

Full HD for Focused Work

Crystal Clear 1080p Resolution on Dual Display

The MX2 features two DisplayPort ports for dual Full HD [@60Hz] displays on Windows laptops and desktops [with USB-C or Thunderbolt 3&4 with video output]. Dual displays save you time otherwise squandered on toggling between applications on single screens. MX2 users also benefit from sharp display resolutions for visually detailed tasks such as image editing and design and layout work.

*See resolution support table below for full details of the resolutions and video outputs your computer is capable of.

Plug &
Play

0.5m Long Cable

No Installation Headaches

Plug and Play. No Software/Drivers Required.

The MX2's Plug and Play capability spares users inconvenient installation delays. Simply connect your Windows laptop to the user-friendly dock and enjoy the benefits.

Space Saving Dock for Heavyweight Performance

9 Ports. 85W Power. Compact Form Factor.

The MX2 weighs just 138 grams and occupies less space than a mobile phone. With premium metal alloy casing, the warranty-backed dock is a smart choice for households who need a take-anywhere dock for home, office and on the go.

9 High-Performance Ports

- 1 USB-C Power Port (85W Power Delivery)
- 2 DisplayPort
- 3 DisplayPort
- 4 Gigabit Ethernet
- 5 Lock Slot
- 6 3.5mm Audio Jack
- 7 USB-A (USB 3.2 Gen 1)
- 8 USB-A (USB 3.2 Gen 1)
- 9 USB-A (USB 3.2 Gen 1)
- 10 USB-C Port (USB 3.2 Gen 1 Data)

Display Resolution Table

Single Display (Maximum Resolution)	Dual Display (Maximum Resolution)
<p>DisplayPort 1 - Up to 4K@60Hz DisplayPort 2 - Up to 4K@60Hz</p> <p>*(4K@60Hz support requires DP 1.4 host with DSC)</p>	<p>DisplayPort 1 - Up to 2 x 1080p + DisplayPort 2 - Up to 2 x 1080p</p>

User Interface

Input	USB-C	
Output	2 x DisplayPort 4K@60Hz	2 x USB-C (85W Power Delivery & USB 3.2 Gen 1 Data)
	1 x Gigabit Ethernet	1 x 3.5mm Audio Jack
	3 x USB-A (USB 3.2 Gen 1)	

Power

Dock can provide up to 85W power to computer (when connected to appropriate power adapter)

Device Compatibility

Compatible with all computers with a USB-C or Thunderbolt 3/4 port which supports video output
