The Space Galaxy Tab Enclosure features rounded edges and open corners for improved ventilation and allows for limited access to buttons and inputs. As with all our Galaxy lock and tablet lock devices, the tablet can be continuously charged while in the enclosure and have peripheral cables plugged in while mounted.

Our Flex Arm stand can be mounted on any flat surface, counter-top or to a wall for use as a secure interactive display or kiosk with a bendable arm that is great for corners and where counter space is limited. Limited cable management is available through the mount and arm of the stand (suitable for Lightning cable or up to Ø 10 mm cable extensions) and there is an adhesive no-screw base add-on available.
