devolo WiFi 6 Repeater 5400

With no effort at all, the devolo WiFi 6 Repeater 5400 sends your Wi-Fi into any corner of the home – and with high-speed certainty. Whether browsing on a tablet or streaming 4K on a smart TV: The data rate of up to 5400 Mbps, coupled with the large coverage provided by the state-of-the-art Wi-Fi 6 standard, supplies every device with a lightning-fast connection. Powerful antennas allow a particularly large number of simultaneous connections without any loss of quality – from home office needs to streaming videos. And it works with any router! Set up is child's play: simply plug in, press the WPS button or use the convenient devolo Home Network App – and your turbo-charged Wi-Fi is ready to go. Two Gigabit Ethernet ports are also provided for wired devices, like smart TVs, media receivers and game consoles. This is devolo quality – with a 3-year manufacturer's warranty!

devolo WiFi 6 Repeater 5400

- **Greater range with Wi-Fi 6:** Quickly and easily increase the range of your existing home or home-office Wi-Fi network – with up to 5400 Mbps! Top reception quality for streaming media, such as video-conferencing, Netflix, Prime and much more.
- **Compatible with all devices:** Whether you're using a smartphone, tablet or smart TV – the devolo repeater is compatible with all Wi-Fi devices and Internet routers.
- **Best equipped for the best connections:** Four strong antennas and OFDMA provide stable data rates for a large number of devices, applications and simultaneous users!
- **Push-button configuration:** It's that easy! All you have to do is push one button on your router and one on the repeater – then everything is ready to go.
- **Two Gigabit network ports:** Gigabit Ethernet ports for stationary devices such as receivers, smart TVs and game consoles.
- **Ready for mesh integration:** Forms a mesh network with other devolo Wi-Fi products.
- **Access point functionality, airtime fairness and crossband repeating.**
- **devolo Home Network app:** Lets you set up parental control, time control or guest Wi-Fi in no time.
- **Maximum security:** devolo products feature the most recent encryption standards WPA2/WPA3 (banking standard), ensuring that your data are protected.
- **State-of-the-art technology from Germany:** devolo develops cutting-edge products for millions of customers around the world – with a 3-year manufacturer's warranty.
- **Intelligent Wi-Fi:** Data streams are automatically prioritised. No more lagging during a video conference just because another device is downloading an update.
- **Speed boost:** The parallel use of Wi-Fi frequencies 2.4 and 5 GHz increases the transmission speeds (crossband repeating).
- **Access point function:** The repeater can also be used as a Wi-Fi access point in order to establish a new Wi-Fi network.
