   Note: Only a USB 3.0 port interface and USB 3.0 cable can be used to connect the Docking Station to the host computer.

Installation

Driver Installation

1. Using a *Web Browser*, navigate to www.startech.com/USB3SDOCKDD.

2. On the *Product* page, click the *Support* tab located in the middle of the screen.

3. In the *Drivers and Downloads* section, click on the driver link that corresponds with the operating system running on the host laptop.

Windows

1. Once the download is complete, right-click on the .zip fold and select **Extra All** from the pop-up menu and follow the on-screen prompts.

2. A list on extracted les will appear, right-click the **Setup.exe** le and select **Run as Administrator** from the pop-up menu and follow the on-screen prompts.

3. Once the drivers are installed and the **Host Computer** has restarted, connect the Docking Station to the **Host Computer**. The **Host Computer** will automatically nalize the driver installation.

Mac

1. Once the download is complete, double click on the following paths: **DisplayLink. zip** le - **MacOs** folder - **OS 10.8 - 10.2** folder - **DisplayLink Installer 75598.dmg** le.

2. Follow the on-screen prompts.

3. Once the drivers are installed and the **Host Computer** has restarted, connect the Docking Station to the **Host Computer**. The **Host Computer** will automatically nalize the driver installation.

Hardware Installation

Stand Installation

The Docking Station can be positioned horizontally on a surface (apply the included rubber feet to the bottom of the Docking Station if desired), or may be mounted vertically using the included stand.

• Using the provided screwdriver and screws, secure the stand to the Docking Station.

Installation

1. Connect the included power adapter from an AC electrical outlet to the DC Input Jack on the Docking Station.

2. Connect the Docking Stations USB 3.0 Upstream Port to an available USB 3.0 port on the host computer using the included USB 3.0 Cable.

3. Connect your DVI monitors to the DVI ports on the Docking Station.

   Note: *If your displays use an HDMI® or VGA interface, connect the included DVI to HDMI® or DVI to VGA adapters to your display cables, and then to the Docking Station as desired. The DVI to VGA adapter can only be used on the DVI-I (29 pin) port.*

4. Connect any other devices as desired, including your RJ-45 LAN Connection, USB peripherals, and Headset.

Display Con guration

Use your Windows or Mac operating system to adjust display settings for multiple monitors.

Supported Video Resolution

Max resolution for DVI, HDMI, and VGA is 2048x1152

> *Note:* *Depending on con guration and the supported resolutions of your connected monitors, the docking station may support video resolutions lower than those speci ed above.*
