

VORTEX RGB FCB 120 COOLING KIT

120x120x25mm  x3  x1

Ready for action? With the Vortex RGB FCB 120 Cooling Kit you get all you need to transform your PC into a living art piece. Three fans and a powerful control box to enhance your computer's looks and bring it to the era of RGB!

TRI-DIRECTIONAL LIGHTING

In, Front, Out. The VORTEX RGB FCB 120 fans' 18 LEDs produce a visual spectacle in three directions. While most other backlit fans project their light only inward and forward, VORTEX RGB FCB 120 gives you a 180° viewing angle, covering all the area visible from outside your PC case.

PRESET LIGHTING EFFECTS + MOTHERBOARD SYNCHRONIZATION

The included COUGAR Core Box C, which supports up to 8 fans and 4 RGB LED strips, allows you directly control its 14 preset lighting effects with an included switch or with your case's reset button. You can also connect it to compatible motherboards' 5V RGB header for system-wide synchronization!

SUPPORT FOR DIRECT MOTHERBOARD CONNECTION

Connect the COUGAR Core Box C directly to the 5V RGB connectors of compatible ASUS, MSI or GIGABYTE motherboards for system-wide synchronization and full customization.

* Please note : Only 5V addressable header from compatible motherboards are supported; please do not connect the COUGAR Core Box C to a 12V Non-addressable header.

CORE BOX C

FAN SPECIFICATIONS

Dimension 120 x 120 x 25mm
Bearing Hydraulic-Bearing
Speed 1200 R.P.M
Air Flow 36.72 CFM 62.36 m3/h
