

## pro stylus

Active stylus with universal capacitive back end tip

### Dual Tip Stylus

Navigate and scroll with the universal capacitive backend tip and write or draw with the active tip.

### Tilt Recognition

Pro Stylus has tilt recognition so you can vary the width of your stroke.

### For Use with Apps for Apple Pencil

Pro Stylus works with most apps that support Apple Pencil.

### Palm Rejection Technology

Only the stylus will register on your iPad, even if your hand touches your screen.

### Key Selling Points

- Increase your productivity: scroll and navigate pages with ease, or make notes, sketch, mark up documents, and more.
- The Pro Stylus automatically pairs with any iPad 2017 or newer. So no need to pair via Bluetooth – and will connect to multiple devices.
- Please disconnect the Apple Pencil to ensure proper connection to the ZAGG Pro Stylus.
- Use the Pro Stylus with your favorite apps that support Apple Pencil.
- The Pro Stylus lasts up to nine hours before it needs to be recharged.
- The Pro Stylus has tilt recognition so you can vary the width of your stroke.
- With palm rejection technology, if you accidentally rest your palm on the screen as you write, your palm won't register on your device.

Compatible with the iPad Mini 5, iPad 9.7 (6th gen), iPad 10.2 (7th & 8th gen), iPad Pro 11 & 12.9 (2018 & 2020), and iPad Air 4.
