### Regulatory Compliance Statements for the Stealth™ 600X Gen 2

**Local Restrictions on 802.11a, 802.11b, 802.11g and 802.11n Radio Usage**  
Caution: Due to the fact that the frequencies used by 802.11a, 802.11b, 802.11g and 802.11n wireless LAN devices may not yet be harmonized in all countries, 802.11a, 802.11b, 802.11g and 802.11n products are designed for use only in specific countries, and are not allowed to be operated in countries other than those of designated use. As a user of these products, you are responsible for ensuring that the products are used only in the countries for which they were intended and for verifying that they are configured with the correct selection of frequency and channel for the country of use. Any deviation from the permissible power and frequency settings for the country of use is an infringement of national law and may be punished as such.

To determine whether you are allowed to use your wireless network device in a specific country, please check to see if the radio type number that is printed on the identification label of your device is listed in the manufacturer's OEM Regulatory Guidance document at the following URL: <http://www.turtlebeach.com/homologation> or contact Turtle Beach directly.

**Federal Communications Commission (FCC) Compliance Notices**  
This section includes the following FCC statements for the Stealth™ 600X Gen 2:  
• Class B Interference Statement  
• RF Radiation Exposure & Hazard Warning  
• Unlicensed National Information Infrastructure Bands Operation Statement

**Class B Interference Statement**  
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
• Reorient or relocate the receiving antenna.  
• Increase the separation between the equipment and receiver.  
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
• Consult the dealer or an experienced radio/TV technician for help.

**FCC Caution:**  
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including that which may cause undesired operation.

**RF Radiation Exposure & Hazard Statement**  
To ensure compliance with FCC RF exposure requirements, this device must be installed in a location such that the antenna of the device will be greater than 2 cm (0.8 in.) from all persons. Using higher gain antennas and types of antennas not covered under the FCC certification of this product is not allowed. Installers of the radio and end users of the product must adhere to the installation instructions provided in this manual. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

**Non-Modification Statement**  
Use only the supplied internal antenna. Unauthorized antennas, modifications, or attachments could damage the Stealth™ 600X Gen 2 and violate FCC regulations. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. Please contact Turtle Beach for a list of approved 2.4 GHz and 5.0 GHz antennas.

**Unlicensed National Information Infrastructure (U-NII) Bands Operation Statement**  
Within the 5.25-5.35 GHz band, U-NII devices will be restricted to indoor operations to reduce any potential for harmful interference to co-channel MSS operations.  
The U-NII devices shall accept any interference from legal communications and shall not interfere with the legal communications. If interference is caused, the user must stop operating the device immediately and cannot resume operation until the harmful interference is clear.  
Manufacturers of U-NII devices are responsible for ensuring frequency stability such that an emission is maintained within the band of operation under all conditions of normal operation as specified in this user manual.

**Dynamic Frequency Selection (DFS)**  
U-NII devices operating in the 5.25-5.35 GHz and 5.47-5.725 GHz bands shall employ a DFS radar detection mechanism to detect the presence of radar systems and to avoid co-channel operation with radar systems in order to reduce the likelihood of interference to radar. The modification of wireless broadband and other transmitter devices to operate on unauthorized frequencies or the disabling of DFS capabilities is a violation of FCC rules and may result in unlawful interference to radio communications services critical to public safety. This product is compliant with the Consumer Product Safety Improvement Act of 2008, Public Law 110-314 (CPSIA)

**Canadian ICES Statements IC: 3879A-2315 (Stealth™ 600X Gen 2)**  
This device complies with ICES-003 and RSS-247 of Industry Canada. Operation is subject to the following two conditions:  
1. This device must not cause interference, and  
2. This device must accept any interference, including interference that may cause undesired operation of the device.

**Ce dispositif est conforme aux normes NMB003 et CNR-247 Industriale Canada.**  
1. L'utilisation de ce dispositif est autorisée seulement aux conditions suivantes.  
2. Il ne doit pas produire de brouillage et l'utilisateur du dispositif doit être prêt à accepter tout brouillage radioélectrique reçu, même si ce brouillage est susceptible de compromettre le fonctionnement du dispositif.

To prevent radar interference to the licensed service (i.e. co-channel Mobile Satellite systems) this device is intended to be operated indoors and away from windows to provide maximum shielding. Equipment (or its transmitter antenna) that is installed outdoors is subject to licensing and not supported by Stealth™ 600X Gen 2 Models.  
Pour éviter les interférences radio au service agréé (i.e. à-d. Les systèmes par satellite mobile co-canal), cet appareil est destiné à fonctionner à l'intérieur et à l'éloigner des fenêtres pour assurer un blindage maximal. L'équipement (ou son antenne d'émission) installé à l'extérieur est soumis à l'octroi de licences et n'est pas pris en charge par les modèles Stealth™ 600X Gen 2.

**RF Radiation Exposure & Hazard Statement**  
To ensure compliance with RSS-102 RF exposure requirements, this device must be installed in a location such that the antenna of the device will be greater than 2 cm (0.8 in.) away from all persons. Using higher gain antennas and types of antennas not covered under the IC certification of this product is not allowed. Installers of the radio and end users of the product must adhere to the installation instructions provided in this manual. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

**Exposition aux radiations RF & Mention de danger**  
Pour assurer la conformité avec les exigences RSS-102 d'exposition aux RF (Radio Fréquences), cet appareil doit être installé dans un endroit où l'antenne de l'appareil sera située à une distance de plus de 2 cm (0,8 po) de toutes les personnes. L'utilisation d'antennes à gain plus élevé et les types d'antennes qui ne sont pas couverts en vertu de la certification IC de ce produit n'est pas autorisée. Les installateurs de la radio et les utilisateurs du produit final doivent se conformer aux instructions d'installation fournies dans ce manuel. Cet émetteur ne doit pas être co-implanté ou exploité en conjonction avec toute autre antenne ou transmetteur.

**Declaration of Conformity**  
Marking by this symbol:

**Warning!** This is a Class B product. In a domestic environment, this product may cause radio interference, in which case, the user may be required to take appropriate measures.  
**Attention!** Dieses ist ein Gerät der Funkströmungsstärkeklasse B. In Wohnbereichen können bei Betrieb dieses Gerätes Rundfunkstörungen auftreten, in welchen Fällen der Benutzer für entsprechende Gegenmaßnahmen verantwortlich ist.  
**Attention!** Ceci est un produit de Classe B. Dans un environnement domestique, ce produit risque de créer des interférences radioélectriques, il appartient alors à l'utilisateur de prendre les mesures spécifiques appropriées.

**Déclaration de conformité**  
Ce produit est certifié pour le déploiement à l'intérieur tout en respectant les limites de cette bande de fréquences: 5150-5250 MHz. Ne pas installer ou utiliser ce produit à l'extérieur au Canada, si cette bande de fréquences ne peut être rencontrée.

**Operation in the Frequency Bands 5470-5725 MHz and 5725-5850 MHz**  
Until further notice, devices subject to this section shall not be capable of transmitting in the band from 5600-5650 MHz. This restriction is for the protection of Environment Canada's weather radars operating in the list under Other devices, it is ready to use. 4. Configuring your settings > On the Windows Taskbar, right-click the Speaker icon, Select Playback Devices. a. Set TURTLE BEACH Stealth 600™ as your default device. b. Select Recording Devices, Set TURTLE BEACH Stealth 600™ as your default device.

**Fonctionnement dans les bandes de fréquence 5470-5725 MHz et 5725-5850 MHz**  
Jusqu'à nouvel avis, les appareils soumis à cette section ne doivent pas être transmis dans la bande de 5600-5650 MHz. Cette restriction concerne la protection des radars météorologiques d'Environnement Canada opérant dans cette bande. Les utilisateurs des séries qui les utilisateurs de radars de haute puissance sont désignés utilisateurs principaux (c.-à-d., qu'ils ont la priorité) pour les bandes 5250-5350 MHz et 5650-5850 MHz et que ces radars pourraient causer du brouillage et/ou des dommages aux dispositifs LAN-EL.

**National Restrictions**  
Indoor Operation The Stealth™ 600X Gen 2 operates in the 5150 to 5350 MHz frequency band and is restricted to indoor use only!  
**Antenna** The Stealth™ 600X Gen 2 has integrated antennas which cannot be replaced.  
**Power Level Control** The Stealth™ 600X Gen 2 does not allow for customized power level control.  
**Operating Frequency** The operating frequency of the Stealth™ 600X Gen 2 is determined by the host console system. As such, it is important that the host console system is correctly configured to meet the local regulations.  
**Recycling** This symbol on the product or its packaging indicates that this product must not be disposed of with your other household waste. It is your responsibility to dispose of your waste equipment by handing it over to a designated collection point for the recycling of waste electrical and electronic equipment. The separate collection and recycling of your waste equipment at the end of its useful life will help conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment. For more information about where you can drop off your waste for recycling, please contact your local authority, or where you purchased your product.

### To access the rating label: Para acceder a la etiqueta de evaluación:

1. Remove the left ear pad by pulling the ear pad straight up using your thumb.  
1. Quitar la almohadilla izquierda al jalarla directamente hacia arriba con el pulgar.
2. Once you've released the cloth from the top on top, pull the ear pad straight back and it should slip right off.  
2. Cuando hayas separado la tela de la orilla en la parte superior, jala la almohadilla directamente hacia abajo, y entonces se debe salir fácilmente de su lugar.

To replace the ear pad, follow the same process in reverse. Para reemplazar la almohadilla, sigue el mismo proceso en orden inverso.
