

Dive Into unrivalled Gaming Audio

The Mission

Creating a true wireless and lag-free in-ear experience engineered for gaming!

2 years of product development

9 critical focus areas

15 ideas to initially explore

Break free from the ordinary

with a completely wireless and lag-free audio experience

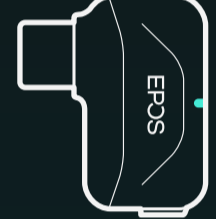

Bluetooth

The standard Bluetooth® 5.1 connection works with any Bluetooth® compatible device. Just connect and you're ready to go.

Low latency

The low latency USB-C dongle takes your game to another level by ensuring a lag-free audio experience engineered for gaming.

Original sound

Clean signal

High distortion

Quality sound is crucial for gamers as too much distortion will impact your gaming experience considerably.

A true immersive gaming experience on the go

Embrace the exceptional comfort

The In-Ear Trifecta

Sealing preserves the bass to ensure a richer, more full-bodied audio.

Ergonomic fit based on +100K ear scans

Proprietary AI maps out pain points to test different shapes and fits

3 typical pain points in the ear

- Flexible areas**
 - susceptible for pressure
- Neutral areas**
 - sensitive to pointy pressure
- Non-flexible areas ***
 - avoid pressure

* By removing pressure on the non-flexible areas, the GTW 270 earbuds ensure a stable, sealed and completely painless fit.

Curvy shape for epic fit

- Stay in your ear
- Non-visible
- Become part of your ear
