Cat6a Shielded Desktop Patch Panel — proper network connections, no rack or cabinet required

The Intellinet Network Solutions Cat6a Shielded Desktop Patch Panel helps IT staff create the right Cat6a-compliant network for their organization. Whether wiring connection points for all compatible equipment or adding more ports to the network with the latest Ethernet cabling standard available, the Cat6a Shielded Patch Panel helps the network grow and evolve. The panel is designed for fully shielded twisted-pair Cat6a wires, and compatible Krone punch-down tools will help get ports wired quickly. The Intellinet Network Solutions Cat6a Shielded Desktop Patch Panel adheres to current industry standards.
