*This display size range is simply a guideline for product selection. Displays larger than the screen size range may still be compatible as long as they fall within the VESA® pattern and max weight of the Peerless-AV® product.

†The depth of this mount (0.33" (8mm)) may not provide sufficient space for proper ventilation on some displays. Refer to the manufacturer's requirements for mounting the display before installation.

‡The display must have a flat mounting surface, or mounting holes need to be on the furthest back surface of the display. Input/output connection must be properly orientated to accommodate mounting 0.33" (8mm) from the wall.
