2-Year Limited Product Warranty

For more information on this product, please visit Linksys.com. Specifications are subject to change without notice. An active, customer-purchased Internet Service Provider broadband account is required for connection to the Internet.
 *Maximum performance derived from IEEE Standard 802.11ac draft specifications. Actual performance can vary, including lower wireless network capacity, data throughput rate, range and coverage.

Performance depends on many factors, conditions and variables, including distance from the access point, volume of network traffic, building materials and construction, operating system used, mix of wireless products used, interference and other adverse conditions. An 802.11ac router or access point will be needed to achieve 802.11ac performance.
