5. HDMI Audio/Video Input
6. Mini DisplayPort Audio/Video Input Port
7. Mounting Bracket Support

Side View

1. Ethernet Output Port
2. HDMI Output Port
3. Power Adapter Port

*actual product may vary from photos

Hardware Installation

1. Using the included die cut outline, trace the inner rectangle on the table surface in your desired location.

2. Carefully cut the rectangle out of the table surface.

Note: StarTech.com is not responsible for any undesired damage to your table surface.

3. Slide the BOX4HDECP into the rectangular hole in your table surface.

4. Under the table surface, slide each of the mounting brackets into a mounting bracket slot on either side of the BOX4HDECP.

5. Using an HDMI cable (not included), connect your HDMI-enabled Video Display Device to the HDMI audio/video output port on the BOX4HDECP.
6. Using an Ethernet cable (not included), connect your Network host device to the side Ethernet pass-through port on the BOX4HDECP.
7. Using the included Power Adapter, connect the power adapter port on the BOXHDECP to an available power outlet.

Hardware Operation

1. As required connect your audio/video source device(s) to any available audio/video input port (HDMI / VGA+3.5mm Audio / Composite / Mini DisplayPort) using the required cabling (not included).
2. As required connect your Network interface device to the top Ethernet pass-through port using an Ethernet cable (not included).
   Note: Attached Ethernet cable should not exceed 60m.
3. Your audio/video input source will now display on your HDMI-enabled Video Display Device.

Note: Automatic switching enables the BOX4HDECP to automatically select your attached video source. Please only connect one video source at a time.

USB Charge Port Operation
The USB Charge Port is a battery charging port capable of charging mobile devices faster than they typically would through a standard USB port.

1. As required connect your battery powered mobile device to the USB Charge Port using a USB cable (not included).
2. Disconnect your battery powered mobile device once the device has completed charging.
