

ULTRA HIGH SPEED HDMI® CABLE

For Device:

Compatible with built-in HDMI or supported HDMI adapter.
Supports 4K HDR digital video and multi-channel digital audio.
Compatible with any HDMI device, including Apple TV 4K.

THE KEY TO THE ULTIMATE VIEWING EXPERIENCE

Transform how you experience movies, TV shows, and video games. This Ultra High Speed HDMI Cable supports the highest resolutions and refresh rates, and offers the most immersive viewing experience available, including compatibility with Dolby Vision™. This advanced high dynamic range (HDR) technology offers unmatched brightness, contrast, and color. To experience it fully you'll need every link in your viewing chain to be Dolby Vision compatible—from streaming devices such as Apple TV 4K to UHDTV or A/V receiver—and your HDMI cable that brings them together. This Ultra High Speed HDMI Cable is up to the task and compatible with any HDMI device: just plug in and enjoy the next generation of high-definition home entertainment.

PRODUCT STORY:

- Research: The future of home video viewing is 4K HDR.
- Consumer requirement: An HDMI cable that can connect streaming devices, such as Apple TV 4K to UHDTV, to enable the next generation of ultra-high-definition home entertainment.

BENEFITS

SEE MORE WITH DOLBY VISION

An amazing new television and movie experience from the comfort of your living room. Many of your favorite movies and TV shows are already available in Dolby Vision with media streaming companies like Netflix® and Amazon® creating new shows in Dolby Vision. Dolby Vision leverages high dynamic range (HDR) and wide color gamut imaging technology to deliver all new levels of depth and realism. Dolby Vision makes a difference on any resolution or screen size because it improves each pixel. With screen brightness and illumination, a sharper contrast between darks and lights, and billions of colors, it brings the images on your screen to life like never before.

FUTURE-READY

The Ultra High Speed HDMI Cable from Belkin is prepared for Dolby Vision, and more. Future-proof your home entertainment with a cable that's ready for the next generation of audio and video.

RELIABLE CONNECTION

The enhanced, lifelike content of Dolby Vision needs an ultra-reliable connection to stream smoothly between streaming devices and your TV or display. Belkin's Ultra High Speed HDMI Cable is up to the task, delivering a faster refresh and eliminating motion blur, for the best possible viewing experience.

IDEAL LENGTH

Designed to fit seamlessly into your home environment, this minimal, 2-meter cable is the perfect length to connect your laptop or streaming device to your UHDTV setup.
