

i-tec USB 3.0 / USB-C Dual 4K DP Video Adapter

i-tec USB 3.0 / USB-C for Dual Display Port Video adapter, 2x Display Port (1x 5K@60Hz or 2x 4K@60Hz), compatible with Thunderbolt 3, Windows, Mac OS, Android, Ubuntu

PRODUCT DESCRIPTION

Extend your desktop with two external Display Port monitors. The adapter supports 1x 5K resolution to 5120x2880@60Hz or 2x 4K resolution 4096x2160@60Hz including audio signal.

You can use the adapter for example with MacBook Pro 2016, DELL XPS12, DELL XPS 13, DELL XPS 15, HP Elite X2, HP EliteBook Folio G1, Spectre x360, Lenovo Thinkpad P50, Lenovo Thinkpad P70, Chromebook Pixel 2015, Acer Switch Alpha 12 and other devices.

The adapter is suitable for designers, graphics and other users who work with multiple screens at the same time. Its performance lets you run even the most demanding applications on one or two independent displays, making it ideal for editing 5K/4K 60Hz videos or for other Ultra HD tasks such as creating CAD drawings or viewing medical shots.

With the "Expand" and "Mirror" modes, you can work with apps across two monitors (e.g. wide spreadsheets), work on one monitor and search for information on the Internet using the second one, compare several documents at once, without constantly skipping open windows, view panoramic images over two monitors, track charts and current data at the same time, show several presentations at once without the necessity to have another computer, etc.

Use is very easy. Just connect the adapter to your computer either via the standard USB 3.0 interface or, thanks to the included reduction, via the modern USB-C or Thunderbolt 3 port. Use the Display Port cable to connect the imaging device, then you can start using it immediately. When connecting a single monitor through two Display Port cables, you can achieve resolution of up to 5K 5120x2880@60Hz, but the graphics card on your computer must support 5K resolution. The adapter is compatible with active HDMI, DVI, and VGA adapters, so you can also connect monitors and TVs that do not have a Display Port connector. Drivers are installed automatically from the system.

Long product description: i-tec USB 3.0 / USB-C for Dual Display Port Video adapter, 2x Display Port (1x 5K@60Hz or 2x 4K@60Hz), compatible with Thunderbolt 3, Windows, Mac OS, Android, Ubuntu

PRODUCT FEATURES

- 1x integrated USB 3.0 cable for connecting to the host device (27cm)
- Video ports:
 - 2x DisplayPort
- Supported Resolutions:
 - 1 monitor - 1x Display Port → up to 1x 4K/60Hz
 - 1 monitor - 2x Display Port → up to 1x 5K/60Hz
 - 2 monitors - 1x Display Port + 1x Display Port → up to 2x 4K/60Hz
- USB-A to USB-C adapter
- OS: Windows 7 / 8 / 8.1 / 10, macOS X, Linux Ubuntu 14.04, 16.04, 17.04, 17.10 18.04, 19.04, Android 5 or later, Chrome OS R51 or later
- Easy driver installation ([Windows](#), [MacOS](#), [Ubuntu](#), [Android \(external link\)](#))
- Product dimensions: 80x 60 x 15 mm
- Product weight: 75 g
- Package dimensions: 180 x 130 x 25 mm
- Package weight: 166 g

SYSTEM REQUIREMENTS

Hardware Requirements:

- Device with an available USB-A, USB-C or Thunderbolt™ 3 port

Operating System:

- Windows 7 / 8 / 8.1 / 10, macOS X, Linux Ubuntu 14.04, 16.04, 17.04, 17.10 18.04, 19.04, Android 5 or later, Chrome OS R51 or later
