

ANTI-SHOCK IK06 THE MOST IMPACT RESISTANT SCREEN PROTECTOR

KEY POINTS

- Strength : **The best anti-shock protection in the market** available in several finishes. Clear, Matte and Privacy.
- User experience : Free your mind, don't be afraid to break your screen anymore, and fully enjoy your device. Of course the functionality of your device remains **unchanged thanks to a high sensitivity to pressure**. This screen protector is **repositionable, pleasant to use and smooth to the touch**.
- In front of any impact : Currently, it's the most impact-resistant protection. These products are **unbreakable and don't crack**, which gives them an exceptional lifetime.

3 finishes available : Clear, Matte and Privacy

How to choose your finish ?

You need optimal visibility : Clear is a transparent finish without any filter between the screen and the eye.

You use your device outdoors, or don't want to see fingerprints anymore : The Matte finish removes bothersome light reflections. Its satin finish make fingerprints invisible and keeps your screen clean longer.

You have confidential data ? : Prying, or simply curious, gazes fall constantly on your screens. The privacy filter allows you to work on important files anywhere by turning the screen black for people who stand next to you, while leaving more than 80% visibility for the user. How to choose your finish.

More than 2 000 references available for smartphones, tablets, hybrid Pcs, notebooks...

IK06 norm protection

The IK standard determines the level of protection against mechanical impacts, according to the NF EN 62262 norm (NF C 20-015). A rating of IK-06 indicates a one-joule impact resistance.

5H Hardness Anti-Scratch

Our shock-resistant screen protectors are rated 5H on the hardness scale between 0H and 10H (for diamonds), which determines resistance to touch, pressure, shearing, friction and shock.

Why a screen protector ?

91% of users have already broken a screen !

On average a screen costs :

- 500 € for a laptop
- 200 € for a tablet
- 100 € for a smartphone

Protecting the device 100% of the time increases its lifespan and thus improves the Total Cost of Ownership !
