## 360° PANORAMIC VIEW

The smart helmet has a Pan/Tilt function. You can see every angle of the room, using your phone as a remote control.

## FOLLOW MOTION

The C6TC tracks all moving objects using its smart motion sensor. You can record video on an SD card or NVR videorecorder.

## PRIVACY WHEN NEEDED

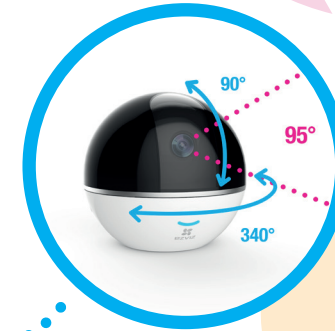

When you activate the privacy mode, the camera moves back into its helmet and immediately stops recording audio and video and disables live viewing.

## SEE WHAT'S HAPPENING, EVEN IN THE DARK

The camera automatically switches to night vision when it's dark. You can watch over your baby's sleep without making any noise or check your store or office during the night.

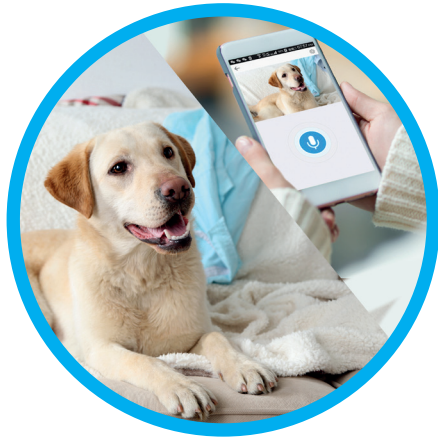

## DOWN TO THE LAST DETAIL

Thanks to the 8x digital zoom, you can zoom in on every detail.

# FEATURES

## ALWAYS UP-TO-DATE

Whenever movement is detected, an instant alert is sent to your mobile phone via an app notification. Know what's happening when it's happening.

## LISTEN IN AND TALK

The C6TC comes with a built-in speaker and microphone. Just open the app and listen in or talk to the room using the speaker when there's an intruder or the dog's sleeping on the sofa.

## STORE AND SHARE IMPORTANT MOMENTS

The camera has an integrated micro SD card slot that supports up to 128 GB of storage. Ideal to keep a funny video of your toddler. You can also store the pictures and videos on the EZVIZ wireless NVR X3 video recorder.
